Every one of the many millions of cars manufactured annually worldwide uses shock absorbers, otherwise known as dampers. These form a vital part of the suspension system of any vehicle, essential for optimizing road holding, performance and safety. This, the second edition of the Shock Absorber Handbook (first edition published in 1999), remains the only English language book devoted to the subject. Comprehensive coverage of design, testing, installation and use of the damper has led to the book's acceptance as the authoritative text on the automotive applications of shock absorbers. In this second edition, the author presents a thorough revision of his book to bring it completely up to date. There are numerous detail improvements, and extensive new material has been added particularly on the many varieties of valve design in the conventional hydraulic damper, and on modern developments such as electrorheological and magnetorheological dampers. "The Shock Absorber Handbook, 2nd Edition" provides a thorough treatment of the issues surrounding the design and selection of shock absorbers. It is an invaluable handbook for those working in industry, as well as a principal reference text for students of mechanical and automotive engineering.

The breakout star of Discovery's hit automotive restoration show Fast N' Loud takes readers on an entertaining ride through his wild life and behind the scenes of his hit show in this memoir and automotive handbook, revving with outrageous details and jaw-dropping stories, and injected with the quick-witted, foul-mouthed charm viewers love. "If we're gonna have fun, it better have a motor!" In Fast N' Loud, Richard Rawlings pushes into high gear, sharing the story of his rise to success, his show, and the automotive know-how that has made him famous. He begins with his own story—how he went from flat broke to a seat at the table with some of history's most iconic car guys. His road to the top is full of dangerous twists and hilarious turns, with a few precipitous cliffs in between, including getting shot defending his beloved 1965 Mustang fastback from carjackers, blowing out of town Fear-and-Loathing style, and picking up chicks and vagrants along the way. Rawlings
