'A nostalgic experience, informative, humorous, charming, but pervaded by the bitter-sweet scent of regret' Daily Mail The A303 is more than a road. It is a story. One of the essential routes of English motoring and the road of choice to the West Country for thousands of holidaymakers, the A303 recalls a time when the journey was an adventure and not simply about getting there. Tom Fort gives voice to the stories this road has to tell, from the bluestones of Stonehenge to Roman roads and drovers paths, to turnpike tollhouses, mad vicars, wicked Earls and solstice seekers, the history, geography and culture of this road tells a story of an English way of life. Fort has an eye for the quirky, the absurd, the pompous and a style that, like the road, is always on the move' Sunday Telegraph 'A lovely book...At last someone has celebrated the romance of the British road' Guardian

HCS12 Microcontroller and Embedded Systems: Using Assembly and C with CodeWarrior, 1e features a systematic, step-by-step approach to covering various aspects of HCS12 C and Assembly language programming and interfacing. The text features several examples and sample programs that provide students with opportunities to learn by doing. Review questions are provided at the end of each section to reinforce the main points of the section. Students not only develop a strong foundation of Assembly language programming, they develop a comprehensive understanding of HCS12 interfacing. In doing so, they develop the knowledge background they need to understand the design and interfacing of microcontroller-based embedded systems. This book can also be used by practicing technicians, hardware engineers, computer scientists, and hobbyists. It is an ideal source for those wanting to move away from 68HC11 to a more powerful chip.

In 1964, Chrysler offered an optional V-8 with it's popular Dodge Valiant. Banking on the resulting success of this option package, Chrysler went on to release a decade worth of low-priced, high-performance muscle cars based on the "A-body" Valiant, including the Dodge Dart GT and GTS, the Swinger 340, and the Demon, as well as the Plymouth Duster. Today, these cars' phenomenal sales figures translate to a thriving Dart and Duster enthusiast scene. Color photography of restored and factory-original vehicles, along with archival black-and-white images, are accompanied by an authoritative history examining the development of the cars. In addition to model histories for each, there are in-depth discussions of vehicle design and production, driving impressions, accessories and options, popular performance upgrades of the period, and the cars' successful histories at the drag strip.

It was expecting them. Conrad and Joanna Harrison, a young couple from Los Angeles, attempt to save their marriage by leaving the pressures of the city to start anew in a quiet, rural setting. They buy a Victorian mansion that once served as a haven for unwed mothers, called a birthing house. One day when Joanna is away, the previous owner visits Conrad to bequeath a vital piece of the house's historic heritage, a photo album that he claims "belongs to the house." Thumbing through the old, sepia-colored photographs of midwives and fearful, unhappily pregnant girls in their starched, nineteenth-century dresses, Conrad is suddenly chilled to the bone: staring back at him with a countenance of hatred and rage is the image of his own wife.... Thus begins a story of possession, sexual obsession, and, ultimately, murder, as a centuries-old crime is reenacted in the present, turning Conrad and Joanna's American dream into a relentless nightmare. An extraordinary marriage of supernatural thrills and exquisite psychological suspense, The Birthing House marks the debut of a writer whose first novel is a terrifying tour de force.
