an actor ' s real life. In *Star Bodies and the Erotics of Suffering*, editors Rebecca Bell-Metereau and Colleen Glenn assemble thirteen scholars to consider fourteen stars whose careers have been defined by suffering on- or off-screen. Together, these essays question assumptions that an actor ' s ability to project an enduring image—both symbolic and physical—is necessary for box-office success, demonstrating instead that disruptions often shape and direct the star image. Contributors in this collection examine a wide range of stars from the last seventy years. Some essays deal with actors who have transformed temporarily for a role, or permanently, through aging or accident, such as Joaquin Phoenix, Daniel Day-Lewis, Mickey Rourke, Charlize Theron, and Hilary Swank. Other essays consider stars ' attempts to conceal aspects of themselves from the public in order to maintain a palatable public image, including Rita Hayworth, Rock Hudson, and Michael Jackson. Some explore typecasting and audience expectations, noting how struggles with marriage, divorce, and aging intersect in the images of Natalie Wood, Marilyn Monroe, and Harrison Ford. A final set considers Sissy Spacek, Julia Roberts, and Halle Berry as women who reconfigure negative press and restrictive gender and racial expectations to their advantage, managing public perceptions of suffering in ways that flummox their critics. *Star Bodies and the Erotics of Suffering* offers film buffs, students, and scholars a fresh take on casting, method acting, audience reception, and the tensions at play in our fascination with an actor ' s dual role as private individual and cultural icon.

In *Framed*, Judith Mayne, a respected critic whose reach extends from film, literature, and feminism to the culture at large, offers a sustained exploration of feminist approaches to film and mass culture, with a particular focus on how contradiction informs feminism in productive and challenging ways. Accessible and engaging, *Framed* will be of interest to anyone who enjoys investigating women's roles in the creation of mass culture. -- from back cover.

Created around the world and available only on the Web, internet "television" series are independently produced, mostly low budget shows that often feature talented but unknown performers. Typically financed through online crowd-funding, they are produced with borrowed equipment and volunteer casts and crews, and viewers find them through word of mouth or by chance. The second in a first-ever set of books cataloging Internet television series, this volume covers in depth the drama and mystery genres, with detailed entries on 405 shows from 1996 through July 2014. In addition to casts, credits and story lines, each entry provides a website, commentary and episode descriptions. Index of performers and personnel are included.
