A fairly new addition to DIRECTV's lineup, SELECT™ is their lowest-priced plan available. At 155 channels (about 5 less than Entertainment), it includes a broad range of general-interest channels and categories. DIRECTV launched the SELECT plan in 2014 to more closely compete with DISH on price... and at \$59.99/mo (during the 12-month promotional period) it certainly does just that.

Since the early 2000s, Disney Channel has been dominated by original live-action programming popular among tween girls. The shows' successes rely not only on their popularity among girl audiences, but also on the development of star personae by girl performers, such as Raven-Symoné, Miley Cyrus, and Selena Gomez. In addition, these programs and their performers have spawned lucrative media and merchandising franchises for the Walt Disney Company. This book includes analyses of this Disney Channel programming, as well as Disney corporate reports and executive statements, together with Disney Channel stars' performances, promotional appearances, media production, philanthropic efforts, and entrepreneurship. Analyzing these texts, performances, activities, and personae, it considers the ways in which they reproduce celebrity, visibility, and feminine performativity as central to successful twenty-first century girlhood.

First published in 2002. Routledge is an imprint of Taylor & Francis, an informa company.

This is a major new assessment of the American movie industry in the 1990's, focusing on the development of new communication technologies such as cable and home video and examining their impact on the production and distribution of motion pictures.

A primer written for high school and community college students guiding them through the process by which lawmakers enact bills in state, federal, and local government. Neal (a former state legislator) invents fictional state legislators and follows them through various state sessions as they introduce, debate, and try to pass specific bills such as graffiti ordinances, domestic abuse, and gun control. At every step, the committees, connections, and compromises required are highlighted. Annotation copyright by Book News, Inc., Portland, OR

Presents the first decade of the MTV network, developing from a radical programming concept to a defining network for a generation and a force in the worlds of music, television, sports, fashion, and politics.

In this "highly entertaining snapshot of a wild-frontier moment in pop culture" (Rolling Stone), discover the wild and explosive true story of the early years of MTV directly from the original VJs. Nina Blackwood, Mark Goodman, Alan Hunter, and Martha Quinn (along with the late J. J. Jackson) had front-row seats to a cultural revolution--and the hijinks of pop music icons like Adam Ant, Cyndi Lauper, Madonna, and Duran Duran--as the first VJs on the fledgling network MTV. From partying with David Lee Roth to flying on Bob Dylan's private jet, they were on a breakneck journey through a music revolution. Going beyond the compelling behind the scenes tales of this unforgettable era, VJ is also a coming-of-age story about the 1980s, its excesses, controversies, and everything in between. "At last--the real inside story of the MTV explosion that rocked the world, in all its giddy excess, from the video pioneers who saw all the hair, drugs and guitars up close. VJ is the wild, hilarious, addictive tale of how one crazy moment changed pop culture forever" (Rob Sheffield, New York Times bestselling author).

Praise for The Billion Dollar BET "In a gripping narrative that is both inspirational and cautionary, Brett Pulley tells us how Robert Johnson built Black Entertainment Television into a billion-dollar media empire. In a remarkable feat of reporting, without Johnson's cooperation, Pulley shows what it really takes to get ahead in America today, and in doing so provides as valuable a cultural as business history." --James B. Stewart Pulitzer Prize-winning journalist and bestselling author of DisneyWar, Den of Thieves, and Heart of a Soldier "Like or dislike? Agree or disagree? Bob Johnson's richly varied and fascinating life presses you against the window that Brett Pulley opens widely." --Bernard Shaw retired CNN anchor "Through his BET network, Bob Johnson reached the pinnacle of capitalism, the billionaire boys club, in the spirit of legions of driven, American moguls . . . Veteran business journalist Brett Pulley peels back the layers of this fascinating and complex entrepreneur." --Teri Agins Senior Special Writer, the Wall Street Journal, and author of The End of Fashion: How Marketing Changed the Clothing Business Forever

From Ken Burns's documentaries to historical dramas such as Roots, from A&E's Biography series to CNN, television has become the primary source for historical information for tens of millions of Americans today. Why has television become such a respected authority? What falsehoods enter our

collective memory as truths? How is one to know what is real and what is imagined -- or ignored -- by producers, directors, or writers? Gary Edgerton and Peter Rollins have collected a group of essays that answer these and many other questions. The contributors examine the full spectrum of historical genres, but also institutions such as the History Channel and production histories of such series as The Jack Benny Show, which ran for fifteen years. The authors explore the tensions between popular history and professional history, and the tendency of some academics to declare the past "off limits" to nonscholars. Several of them point to the tendency for television histories to embed current concerns and priorities within the past, as in such popular shows as Quantum Leap and Dr. Quinn, Medicine Woman. The result is an insightful portrayal of the power television possesses to influence our culture.

Many proclaimed the "end of television" in the early years of the twenty-first century, as capabilities and features of the boxes that occupied a central space in American living rooms for the preceding fifty years were radically remade. In this revised, second edition of her definitive book, Amanda D. Lotz proves that rumors of the death of television were greatly exaggerated and explores how new distribution and viewing technologies have resurrected the medium. Shifts in the basic practices of making and distributing television have not been hastening its demise, but are redefining what we can do with television, what we expect from it, how we use it—in short, revolutionizing it. Television, as both a technology and a tool for cultural storytelling, remains as important today as ever, but it has changed in fundamental ways. The Television Will Be Revolutionized provides a sophisticated history of the present, examining television in what Lotz terms the "post-network" era while providing frameworks for understanding the continued change in the medium. The second edition addresses adjustments throughout the industry wrought by broadband delivered television such as Netflix, YouTube, and cross-platform initiatives like TV Everywhere, as well as how technologies such as tablets and smartphones have changed how and where we view. Lotz begins to deconstruct the future of different kinds of television—exploring how "prized content," live television sports and contests, and linear viewing may all be "television," but very different types of television for both viewers and producers. Through interviews with those working in the industry, surveys of trade publications, and consideration of an extensive array of popular shows, Lotz takes us behind the screen to explore what is changing, why it is changing, and why the changes matter.
