Effective writing through critical thinking. Above all others, this rhetorical patterns reader provides a comprehensive grounding in critical thinking as the foundation for close reading and effective writing. Just as important, by exposing the reader to interesting and insightful prose by a diversity of top writers, the reader is motivated to respond in writing and discussions. By thinking, reading, and writing on three increasingly difficult levels - literally, interpretively, and critically - readers can better learn the processes and skills necessary to be successful in all their writing experiences.

An essential reading for all those, who are interested in studies about and experiences with the use of poetry as a writing intensive pedagogy in a US community college or on a general undergraduate education level.

Content throughout the 9th edition conforms to the latest version of ACI-318 Code. It expands discussion of several common design elements and practice issues, and includes more end-of-chapter problems reflecting real-world design projects.

Normal 0 false false false MicrosoftInternetExplorer4 The Fifth Edition of The Policy-Based Profession provides students with a process for analyzing policies that will help them as they enter a career in social work. It offers a detailed foundation for policy analysis, including chapters on historical policy analysis, social/economic analysis, and political analysis. This text brings students up to date on the latest developments in welfare reform, mental health managed care, the campaign to restructure Social Security, reactions to current immigration issues, current threats to workers' pensions, program and policy responses to the problems of substance abuse, and the use of family preservation as an approach to child protection. A new chapter on policy practice skills discusses analytical skills, interactional skills, and political skills.

The Blair Reader encourages public discussion in the wider world by reading actively as well as critically and responding to the ideas of others. After more than twenty-five years of teaching composition, the authors have come to see reading and writing as interrelated activities: To write effectively, one must also read actively and critically. The authors have found and strongly believe that a reader is enriched and engaged when he/she view the reading and writing they do as a way of participating. From the beginning, the goal in The Blair Reader has always been to encourage these discussions in the wider world by responding to the ideas of others.

Nexus presents the traditional rhetorical modes as different ways of thinking about our contemporary world, no matter the medium. It builds on students' multimedia communication skills by using a mix of readings in contemporary and traditional genres to improve students' college writing skills. Nexus starts where students' interests lie—with engaging essays, interviews, blog conversations, Web sites, and YouTube videos. These “ readings ” are presented in a lively, highly visual format that draws on the daily environment in which students are immersed, including electronic and visual sources that are stimulating, energizing, and directly related to topics they are studying. While the format of Nexus is contemporary and stimulating, the content is substantive and pedagogically sound. Students are asked continually throughout this text to pull ideas from multiple media and respond to them first with critical thinking and writing and then by creating a project through a written, oral, visual, or electronic medium of their own choice.

Through four successful editions, this briefer book uses an approach which promotes learning as an "activity" of the reader - it shows how "active learning" can motivate and excite readers to a deeper understanding of introductory psychology. With balanced and modern treatment of gender and culture, this book encourages readers to develop "critical thinking" skills. It is organized around the SQ4R (survey, question, read, recite, review) method of learning.
