"An epic saga of love, courage and devotion in Nero's time, Quo Vadis portrays the degenerate days leading to the fall of the Roman empire and the glory and the agony of early Christianity. Set at a turning point in history (A.D. 54-68), as Christianity replaces the era of corruption and gluttony that marked Nero's Rome, Quo Vadis brims with life."--Publisher description.

This historical novel contrasts the decadence of ancient Rome with the powerful simplicity of the earliest Christians. Its epic tale recounts the romance between a young Christian convert and a Roman soldier.

Written at a time of global pandemic, when we have been forced to confront age-old existential questions—Why are we here? Where are we going?—perhaps for the first time, Quo Vadis? is extraordinarily relevant to leaders, managers and anyone who wants to bring meaning and authenticity into their work and life. Manfred Kets de Vries argues that we need to address these fundamental and disturbing questions if we are to live fully and meaningfully. Too many people wake up on a Monday morning and do the same things they have done every Monday. They go to work and function on autopilot without questioning their purpose. But how can we make sure our lives are rich and fulfilling? How do we know we're on the right track? This is a book about death and the fear of death, about angst and absurdity; but it is also about endurance, honesty, well-being, responsibility, living with hard truths, creating meaning—and happiness. Quo Vadis? makes us look full on at the things we prefer not to see. It is a short book that pulls no punches but is far from bleak. Instead, Kets de Vries shows that our life is enriched, and our ability to make meaning and find happiness is increased, when we acknowledge the inevitable price we have to pay for knowing our own mind and understanding our inevitable end.

Originally published in Polish in 1896 by Nobel Prize-winning author Henryk Sienkiewicz, "Quo Vadis: A Narrative of the Time of Nero" is the story of a love that develops in Rome between a young Christian woman, Lygia, and Marcus Vinicius, a Roman patrician, during the reign of Nero in 64 AD. The title "Quo Vadis" is translated from Latin as "Where are you going?" The quote is a reference to the New Testament verse John 13:36, which states "Simon Peter said unto him, Lord, whither goest thou? Jesus answered him, Whither I go, thou canst not follow me now; but thou shalt follow me afterwards." Sienkiewicz exhaustively researched the Roman Empire and the result is an incredibly detailed and believable story. The novel is one of contrasts: the violence of ancient Rome and its gladiators contrasted with the sweet and touching love story between Marcus and Lygia, and the contrast between the piety, poverty, and spirituality of the early Christians with the decadence and waste of Nero and his court. "Quo Vadis: A Narrative of the Time of Nero" is a captivating and timeless tale of love and devotion amid violence and ruin. This edition is printed on premium acid-free paper.

The papers in this volume, derived from Quo Vadis international workshop held in Rome, Italy, in 2013, address the two major challenges facing the global economy: globalization and European structural crisis as well as examining the impact on the Italian economy. A host of experts drawn from international institutions, economic and political research centres, and leading economists provide a multi-disciplinary perspective on the outlook of the world economy, taking into consideration factors such as the Euro crisis, capital and investment, financial markets, European energy and health systems. To support this discourse the contributors closely examine the regional policies of Europe, the United States, Russia, Morocco, Egypt and Italy, and also consider the role of the IMF, EIB, World Bank and WTO. The findings reflect on the challenges of long-term growth and suggest ways for sustainable financial conditions in the future. Quo Vadis provides a comprehensive analysis of the problems facing the global economy and is essential reading for scholars, researchers and policy makers.

The audit profession is at a tipping point. Without significant innovation in its business model, staff recruitment strategies and audit execution processes, the audit profession may not remain relevant in the 21st century. The number of claims against auditors has significantly increased over the past twenty years due to the spate of corporate and audit failures early in the 21st century (Enron, Worldcom, Parmalat, etc.). Regulation to monitor professional and ethical standards has increased, leading audit firms to feel under even more financial pressure. In addition, the investor community is calling for greater insight and foresight from auditors. These challenges, coupled with the unlimited liability regime of auditors still applicable in many jurisdictions, are making audit firms and regulators nervous as to the systemic risk of another one of the Big 4 failing. And yet, the audit profession is in place to protect businesses, their wider stakeholder groups, including clients and investors, and society at large. Therefore, this book asks the important question about the profession's future and engages a broad readership in the discussion of audit failure and reform. Intended to help readers to get up to speed with the issues and possible solutions quickly, this book assists directors, investors, business people and regulators, especially those with a non-financial background, to gain a greater understanding of the challenges and threats being faced by the audit profession, which in turn could disrupt the capital market and affect businesses across the globe. The book outlines the critical success factors needed for a sustainable audit profession.

Marcus Vinicius is a passionate Roman tribune; Lygia Callina is a Christian maiden of royal descent and a hostage of Rome. At first Marcus has no notion of love, but he desires Lygia with animalistic intensity. Through political machinations, he contrives to have her taken by force into the decadent splendor of Ceasar's court, setting in motion a series of events that culminate in his own spiritual redemption. Set at the dawn of Christianity, and written with amazing historical accuracy, Quo Vadis won for its author the Nobel Prize. Translated into more than 40 languages, this captivating tale is one of the greatest novels in the history of religious literature. Newly designed and typeset in a modern 6-by-9-inch format by Waking Lion Press.
