Kek comes from Africa. In America he sees snow for the first time, and feels its sting. He's never walked on ice, and he falls. He wonders if the people in this new place will be like the winter - cold and unkind. In Africa, Kek lived with his mother, father, and brother. But only he and his mother have survived, and now she's missing. Kek is on his own. Slowly, he makes friends: a girl who is in foster care; an old woman who owns a rundown farm, and a cow whose name means "family" in Kek's native language. As Kek awaits word of his mother's fate, he weathers the tough Minnesota winter by finding warmth in his new friendships, strength in his memories, and belief in his new country. Bestselling author Katherine Applegate presents a beautifully wrought novel about an immigrant's journey from hardship to hope. Home of the Brave is a 2008 Bank Street - Best Children's Book of the Year.

!-[if gte mso 9] ![endif]-- Read the bestselling book that inspired the ABC television series. As America's Mercury Seven astronauts were launched on death-defying missions, television cameras focused on the brave smiles of their young wives. Overnight, these women were transformed from military spouses into American royalty. They had tea with Jackie Kennedy, appeared on the cover of Life magazine, and quickly grew into fashion icons. Annie Glenn, with her picture-perfect marriage, was the envy of the other wives; JFK made it clear that platinum-blond Rene Carpenter was his favorite; and licensed pilot Trudy Cooper arrived with a secret that needed to stay hidden from NASA. Together with the other wives they formed the Astronaut Wives Club, providing one another with support and friendship, coffee and cocktails. As their celebrity rose-and as divorce and tragedy began to touch their lives-the wives continued to rally together, forming bonds that would withstand the test of time, and they have stayed friends for over half a century. THE ASTRONAUT WIVES CLUB tells the story of the women who stood beside some of the biggest heroes in American history.

When Jose Canseco burst into the Major Leagues in the 1980s, he changed the sport -- in more ways than one. No player before him possessed his mixture of speed and power, which allowed him to become the first man in history to belt more than forty home runs and swipe more than forty bases in the same season. He won Rookie of the Year, Most Valuable Player, and a World Series ring. Canseco shattered the mold of the out-of-shape baseball player and ushered in a new era of superathletes who looked like bodybuilders, made outrageous salaries, and enjoyed rock-star lifestyles. And the ticket for this ride? Steroids. Behind the gaudy stats and the glamour of his public life, Canseco cultivated a secret just about everyone in MLB knew about, one that would alter the game of baseball and the way we view our heroes forever. Canseco made himself a guinea pig of the performance-enhancing drugs that were only just beginning to infiltrate the American underground. Anabolic steroids, human growth hormones -- Canseco mixed, matched, and experimented to such a degree that he became known throughout the league as "The Chemist." He passed his knowledge on to trainers and fellow players, and before long, performance-enhancing drugs were running rampant throughout Major League Baseball. Sluggers scooping up pitches at their ankles and blasting them out of the park, pitchers cranking fastballs inning after inning -- Canseco showed the players how to customize their doses to sculpt the bodies they wanted, and baseball as we know it was the result. Today, this issue has crept out of the closet and burst into the headlines as players balloon to herculean proportions and hundred-year-old records are not only broken, but also demolished. In this shocking memoir, Canseco sheds light on a life of dizzying highs and debilitating lows, provides the answers to questions about steroids that millions of fans are only now beginning to ask -- and suggests that, far from being a passing trend, the steroid revolution is only a taste of things to come. Who's juiced? According to Canseco's authoritative account, more than you think. And baseball will never be the same.

These are just some of the works of art you will find in this stunning collection that pairs twenty poems by distinguished African-American poets with twenty works of art by acclaimed African-American artists. Alice Walker's poem "Women" -- about women who "battered down/Doors/And ironed/Starched white/Shirts" so their children would get a good education -- is paired with the breathtaking portrait Harriet Tubman, by William H. Johnson. The tender "Little Brown Baby" by poet Paul Laurence Dunbar, and artist Romare Bearden's Family reflect the deep love parents feel for their children. African-American identity and history are powerfully evoked in art and poetry about slavery, racism, and black pride. But African-American poetry and art have no boundaries, and these poets and artists explore many other themes as

well, that will touch your heart, and dazzle your eyes. This important collection inspires imagination as it pairs splendid poets and artists in a way that has never been done before.

A visit to a family farm with a special tractor brings back memories for a grandfather who shares them with his grandson. Grandpa Joe takes his grandson Timmy back to the site of his family's farm, where the old house and a ramshackle barn still stand. The visit stirs up memories for Grandpa Joe—in particular, the majesty of his own father's shiny red tractor, now rusting in the forgotten fields. An ideal gift, this picture book evokes nostalgia while demonstrating a special bond between a grandparent and grandchild.

Presents a sentence-by-sentence interpretation of the U.S. Constitution for elementary school students, with the first half of the work arranged with the original wording in the left column and a translation in simple language on the right. Reprint.

An acclaimed book and widely acknowledged classic, *The Middle Ground* steps outside the simple stories of Indian-white relations - stories of conquest and assimilation and stories of cultural persistence. It is, instead, about a search for accommodation and common meaning. It tells how Europeans and Indians met, regarding each other as alien, as other, as virtually nonhuman, and how between 1650 and 1815 they constructed a common, mutually comprehensible world in the region around the Great Lakes that the French called *pays d'en haut*. Here the older worlds of the Algonquians and of various Europeans overlapped, and their mixture created new systems of meaning and of exchange. Finally, the book tells of the breakdown of accommodation and common meanings and the re-creation of the Indians as alien and exotic. First published in 1991, the 20th anniversary edition includes a new preface by the author examining the impact and legacy of this study.
