A soaring bird is an age-old symbol, sacred and secular, of the spirit. Of all the great American songwriters, Hoagy Carmichael was perhaps the most strongly influenced by the music of the southern states, including the spiritual. In more than one sense, then, his wistfully yearning song brings the album full circle, feeling the spirit.

Move your prayer life to a deeper level with these faith-filled, inspiring reflections. In Seasons of the Spirit, Jane Rutter guides you gently through the rhythms of the church 's liturgical seasons including Advent, Lent, Easter, and Ordinary Time. She finds the " God moment " in the actions of daily life: a sports event, taking a walk, fixing cars, waiting in traffic jams, shopping, or canning salsa. Her conversational style reminds you of sharing a cup of coffee at a friend 's kitchen table. Lifelong Catholics and new seekers alike will be touched by the simple beauty in these reflections. Find a sense of peace from spending a few moments each day with this book as your prayer guide. You will discover anew the wonder of creation and refresh your spirit.

God's Plenty examines the religious landscape of Kingston, Ontario, in the twenty-first century. The rich religious life of Kingston - a mid-sized city with a strong sense of its history and its status as a university town - is revealed in a narrative that integrates material from sociological and historical studies, websites, interviews, religious and literary scholarship, and personal experience. In Kingston, as in every Canadian city, downtown parishes and congregations have dwindled, disappeared, or moved to the suburbs. Attendance at mainline churches - and their political authority - has declined. Ethnic diversity has increased within Christian churches, while religious communities beyond Christianity and Judaism have grown. Faith groups have split along liberal and conservative lines, and the number of those claiming to have no religion - or to be spiritual but not religious - has increased. Yet amidst all this, religion continues to be evident in institutions and public life and important to the lives of many Canadians. God's Plenty, a ground-breaking contribution to the study of religion in Canada and a model for future community-based research, is the first overview of the religious topography of a Canadian city, telling the story of various faith communities and adding to the study of religious diversity and multiculturalism.

(Choral Collection). With a foreward by Mormon Tabernacle Choir Director Craig Jessop, this new collection of Moses Hogan originals and arrangements is a welcome addition to the first volume. Essential for every director's library, it includes: Cert'nly Lawd * Climbin' up the Mountain * Deep River * Give Me Jesus * I'll Make the Difference (A Song of Hope for Singers Around the World) * Like a Mighty Stream * Music down in My Soul * Ride On, King Jesus * We Shall Walk Through the Valley in Peace and more.

Correcting many contemporary errors and misconceptions about Christian living, Merrill Unger traces the doctrine of the Holy Spirit through the New Testament, pointing out that true maturity is achieved only in day-to-day obedience, fellowship, Bible study, and prayer.

Hegel is known as "the father of art history," yet recent scholarship has overlooked his contributions. This is the first comprehensive interpretation of Hegel's philosophy of art in English in thirty years. In a new analysis of Hegel's notorious "end of art" thesis, Hegel's Aesthetics shows the indispensability of Hegel's aesthetics for understanding his philosophical idealism and introduces a new claim about his account of aesthetic experience. In a departure from previous interpretations, Lydia Moland argues for considering Hegel's discussion of individual arts—architecture, sculpture, painting, music, and poetry—on their own terms, unlocking new insights about his theories of perception, feeling, selfhood, and freedom. This new approach allows Hegel's philosophy to engage with modern aesthetic theories and opens new possibilities for applying Hegel's aesthetics to contemporary art. Moland further elucidates his controversial analysis of symbolic, classical, and romantic art through clarifying Hegel's examples of each. By incorporating newly available sources from Hegel's lectures on art, this book widely expands our understanding of the particular artworks Hegel discusses as well as the theories he rejects. Hegel's Aesthetics further situates his arguments in the intense philosophizing about art among his contemporaries, including Kant, Lessing, Herder, Schelling, and the Schlegel brothers. Ultimately, the book offers a rich vision of the foundation of his ideas about art and the range of their application, confirming Hegel as one of the most important theorists of art in the history of philosophy.
