Since its introduction in 2010, the iPad has quickly become an iconic device - a compact, versatile tablet computer that packs a real punch in terms of its functionality. It is now widely used and in many ways it is ideal for children: it is user-friendly, compact, powerful and stylish into the bargain. But for a parent, the idea of your child using an iPad can be a daunting one: how do you know what they are using it for, what are they looking at on the web and how are they communicating with their friends? A Parent's Guide to the iPad in easy steps is the guide that aims to put parents' minds at ease and lets them understand the iPad, while helping their child explore this exciting machine. The book looks at the functionality of the iPad so that you can understand how your child is using it, and also make the most of yourself. It then covers a range of topics for which the iPad can be used: education, games, photos, music, creativity and social networking. This third edition covers the latest operating system, iOS 7. A Parent's Guide to the iPad in easy steps will inspire parents to use their iPad to encourage more learning!

This book constitutes the refereed proceedings of the 9th International Conference on Digital Forensics and Cyber Crime, ICDf2C 2017, held in Prague, Czech Republic, in October 2017. The 18 full papers were selected from 50 submissions and are grouped in topical sections on malware and botnet, deanonymization, digital forensics tools, cybercrime investigation and digital forensics triage, digital forensics tools testing and validation, hacking

Provides a basic introduction to the tablet computer, covering topics such as getting online, navigating the Web, downloading apps, using Facebook and Twitter, playing music, setting up email.

Get the most out of Samsung ' s Galaxy S5 smartphone right from the start. With clear instructions from technology expert Preston Gralla, this Missing Manual gives you a guided tour of Samsung's new flagship phone, including great new features such as the fingerprint scanner, heart rate sensor, and Download Booster. You ' ll get expert tips and tricks for playing music, calling and texting, shooting photos and videos, and even getting some work done. The important stuff you need to know: Get connected. Browse the Web, manage email, and download apps from Google Play through WiFi or 3G/4G network. Keep in touch. Call, text, chat, videochat, conduct conference calls, and reach out with Facebook and Twitter. Capture and display images. Connect to Google Maps. Use geolocation and turn-by-turn drive directions to find your way. Stay fit with S Health. Use this built-in app to keep track of fitness goals, walking, heart rate, blood pressure, and more.

This book discusses the latest advances in research and development, design, operation and analysis of transportation systems and their complementary infrastructures. It reports on both theories and case studies on road and rail, aviation and maritime transportation. The book covers a wealth of topics, from accident analysis, vehicle intelligent control, and human-error and safety issues to next-generation transportation systems, model-based design methods, simulation and training techniques, and many more. A special emphasis is given to smart technologies and automation in transport, as well as to user-centered, ergonomic and sustainable design of transport systems. The book, which is based on the AHFE 2016 International Conference on Human Factors in Transportation, held on July 27-31, 2016, in Walt Disney World®, Florida, USA, mainly addresses transportation system designers, industrial designers, human-computer interaction researchers, civil and control engineers, as well as vehicle system engineers. Moreover, it represents a timely source of information for transportation policy-makers and social scientists dealing with traffic safety, management, and sustainability issues in transport.

This book constitutes the proceedings of the Third International Conference on Interactive Collaborative Robotics, ICR 2018, held in Leipzig, Germany, in September 2018, as a satellite event of the 20th International Conference on Speech and Computer, SPECOM 2018. The 30 papers presented in this volume were carefully reviewed and selected from 51 submissions. The papers presents challenges of human-robot interaction, robot control and behavior in social robotics and collaborative robotics, as well as applied robotic and cyberphysical systems.
