A compilation of 3M voices, memories, facts and experiences from the company's first 100 years.

Thirty papers provide information on the magnitude of corrosion damage and how testing and evaluation techniques assist in minimizing failures. New developments in computer aided evaluations are highlighted along with advances in electrochemical techniques. Also covered are measurements in soil, wat

Vols. for 1919- include an Annual statistical issue (title varies).

Preparedness and rigorous planning on community, state, and regional levels are critical to containing the threat of pandemic illness. Steeped in research and recommendations from lessons learned, Pandemic Planning describes the processes necessary for the efficient and effective preparation, prevention, response, and recovery from a pandemic threat. This evidence-based book guides plan development and provides solutions to common strategic, ethical, and practical challenges to pandemic preparedness. Topics discussed include: The current threat of pandemics and how they relate to homeland security and emergency management Leadership and incident management structure as they relate to pandemic preparedness Computer simulation models and data visualization for strengthening prevention and control measures within a community Marketing principles and how they promote pandemic preparedness for a community Lessons learned from pandemic influenza exercises conducted with regional hospitals and how those lessons can be applied to other institutions Government resources available to assist with the planning for and monitoring of a pandemic event Economic and logistic concerns that arise during a pandemic Discussing preparedness across a variety of institutional levels, the authors' collaboration with national research leaders and community stakeholders has enabled them to assemble the most current and essential information available on pandemic preparedness. Their book distills this information into workable strategies to bolster public health, mitigate risk, and protect the population.
