the impossible is an everyday act for the West Indies legend: the first man to smash an international T20 century, the first to hit a World Cup 200, the fastest century in the history of the game. He has hit twice as many T20 sixes as any other man and scored two Test triple centuries. All this is delivered with cricket's biggest bat and an even bigger smile. Off the pitch, millions follow him on Instagram and Twitter to catch a glimpse of a globe-trotting life spent in nightclubs as much as nets, hot-tubs as often as helmets and pads. He plays late, parties later, demolishes a king-size pile of pancakes and then strolls out to mangle another hapless bowling attack. But do we really know him? Meanwhile, there's Pearl's teenage son, Rhett. A sensitive kid who has forged an unconventional path through adolescence, Rhett seems to find greater satisfaction in being unhappy. The very rejection of joy is his own kind of "pursuit of happiness." As his mother, Pearl wants nothing more than to help Rhett--but is it for his sake or for hers? Certainly it would make Pearl happier. Regardless, her son is one person whose emotional life does not fall under the parameters of her job--not as happiness technician, and not as mother, either. Told from an alternating cast of endearing characters from within Pearl and Rhett's world, *Tell the Machine*

Goodnight delivers a smartly moving and entertaining story about the advance of technology and the ways that it can most surprise and define us. Along the way, Katie Williams playfully illuminates our national obsession with positive psychology, our reliance on quick fixes. What happens when these obsessions begin to overlap? With warmth, humor, and a clever touch, Williams taps into our collective unease about the modern world and allows us see it a little more clearly.

New from Ian McEwan, Booker Prize winner and international bestselling author of *Atonement* and *The Children Act* *Machines Like Me* takes place in an alternative 1980s London. Charlie, drifting through life and dodging full-time employment, is in love with Miranda, a bright student who lives with a terrible secret. When Charlie comes into money, he buys Adam, one of the first synthetic humans and—with Miranda's help—he designs Adam's personality. The near-perfect human that emerges is beautiful, strong, and clever. It isn't long before a love triangle soon forms, and these three beings confront a profound moral

First published as *The Years That Matter Most* from best-selling author Paul Tough, an indelible and explosive book on the glaring injustices of higher education, including unfair admissions tests, entrenched racial barriers, and crushing student debt. Now updated and expanded for the pandemic era. When higher education works the way it 's supposed to, there is no better tool for social mobility—for lifting young people out of challenging circumstances and into the middle class and beyond. In reality, though, American colleges and universities have become the ultimate tool of social immobility—a system that secures a comfortable future for the children of the

wealthy while throwing roadblocks in the way of students from struggling families. Combining vivid and powerful personal stories with deep, authoritative reporting, Paul Tough explains how we got into this mess and explores the innovative reforms that might get us out. Tough examines the systemic racism that pervades American higher education, shows exactly how the SATs give an unfair advantage to wealthy students, and guides readers from Ivy League seminar rooms to the welding shop at a rural community college. At every stop, he introduces us to young Americans yearning for a better life—and praying that a college education might help them get there. With a new preface and afterword by the author exposing how the coronavirus pandemic has shaken the higher education system anew.
