Southeast Asia: An Introductory History — Wardah Books

Despite labeling itself an 'introduction', this history presumes existing knowledge of the classical civilizations of SE Asia. Still, it argues convincingly that SE Asia should be considered a cultural, political, and economic region in its own right, rather than an imitator of Chinese, Indian, and Western cultures.

Southeast Asia: An Introductory History—Milton E—

History of Southeast Asia. The history of Southeast Asia covers the people of Southeast Asia from prehistory to the present in two distinct sub-regions: Mainland Southeast Asia (or Indochina) and Maritime Southeast Asia (or Insular Southeast Asia). Mainland Southeast Asia comprises Cambodia, Laos, Myanmar (or Burma), Peninsular Malaysia, Thailand and Vietnam whereas Maritime Southeast Asia comprises Brunei, Cocos (Keeling) Islands, Christmas Island, East Malaysia, East Timor, Indonesia, ...

History of Southeast Asia—Wikipedia

A distinctive feature of Southeast Asia is its cultural diversity. Of the six thousand languages spoken in the world today, an estimated thousand are found in Southeast Asia. Archeological evidence dates human habitation of Southeast Asia to around a million years ago, but migration into the region also has a long history.

While deepening our understanding of Southeast Asia, this fine introduction reminds us of the importance of history itself. ' - Anthony Milner, BASHAM Professor of Asian History, Australian National University 'Still one of the best short introductory histories to the region even after nine editions.' - Eric Tagliacozzo, Cornell University The first edition of Southeast Asia: An introductory history was published in 1979 and immediately filled a need for travellers and students interested in a tantalisingly different part of the world. Subsequent editions have continued to document with great perception the enormous changes and dramatic growth experienced in the region. Dr Milton Osborne has been a resident, student and fascinated observer of Southeast Asia for over 40 years. This familiarity has resulted in a highly readable and lively chronicle. While giving due regard to the early history of the region, Osborne concentrates on the changes that have taken place since the eighteenth century; the impact of colonial rule, economic transformations of the 19th and 20th centuries, the emergence and triumph of the independence movements, the impact of social change and the pivotal roles played by religion, ethnic minorities and immigrant groups. He also provides an introduction to the art of the region and a comprehensive guide to literature about Southeast Asia. Clearly written and extensively illustrated this tenth edition of Southeast Asia: An introductory history remains a classic in the field.

A lively and easy-to-read guide to Southeast Asian history written by one of the world's pre-eminent historians of the area.

This classic work has been the most widely read introduction to the region for more than 20 years and still retains its reputation as a highly readable survey of Southeast Asia's modern history. This newly revised edition is up to date with the constant political and geographical changes in this fluid region of the world. The impact of social change and the pivotal roles played by religion, ethnic minorities, and immigrant groups is illuminated. Clearly written and extensively illustrated with maps, prints, and photographs, the book also includes an introduction to the art of the region and a guide to literature about Southeast Asia.

Read PDF Southeast Asia An Introductory History Milton E Osborne

A new, comprehensive, one volume history of Southeast Asia that spans prehistory to the present. Ricklefs brings together colleagues at the National University of Singapore whose expertise covers the entire region, encompassing political, social, economic, religious and cultural history. Opening with an account of the ethnic groups and initial cultural and social structures of Southeast Asia, the book moves through the early 'classical' states, the arrival of new global religions and the impact of non-indigenous actors. The history of early modern states and their colonial successors is followed by analysis of World War II across the region. Offering a definitive account of decolonisation and early post-colonial nation-building, the text then transports us to modern-day Southeast Asia, exploring its place in a world recovering from the financial crisis. The distinguished author team provide an authoritative and accessible narrative, drawing upon the latest research and offering detailed guidance on further reading. A landmark contribution to the field, this is an essential text for scholars, students and anyone interested in Southeast Asia.

Straddling the equator, Southeast Asia comprises Myanmar, Thailand, Malaysia, Indonesia, Vietnam, Singapore, and the Philippines, as well as Laos, Cambodia, Brunei, and East Timor. Despite its extraordinary diversity of ethnicities, religions, and political systems, Southeast Asia plays a keyrole in global economies and geopolitics, especially in light of its strategic position bordering China and India. This Very Short Introduction explores the contemporary character of Southeast Asia's national societies through the lens of their historical evolution, from the eras of indigenoukingdoms and colonies under Western rule to the present's independent nation states. Deftly combining historical analysis and geopolitical insights, the book paints a bird's eye view of contemporary Southeast Asia as a community of diverse societies and traditions as well as a politicaltheater-of-action nested between India and China and tangled in global economic traffic patterns, balance of powers, and environmental forces.As James R. Rush explains, archaic structures, such as religious and ethnic rivalries, tenacious feudal hierarchies, and age-old trade and migration patterns, remain rooted in today's Southeast Asia beneath the surface of modern national governments. The book draws on a wide range of examples fromthe major nations, including the ethno-religious violence in Myanmar, the Muslim-led rebellion in the southern Philippines, the Thai-Cambodian territorial rivalries, the Confucian-inspired governance in Singapore, the military rule and democratization in Indonesia, the environmental consequences ofagriculture, mining, and unchecked urbanization, and the big-power alignments and tensions involving the United States, China, and Japan. By delving into the cultural, political, and geographical background of Southeast Asia, Rush shows that Southeast Asia is unquestionably modern, but it is modernin distinctively Southeast Asian ways.

Explore the fascinating history of south-east Asia A Short History of South-East Asia, Sixth Edition is the latest in a series of updated texts spotlighting this fascinating region. With revised chapters for all of the countries in this geographic area, this interesting text paints a remarkable overview of the characters and events that have shaped this part of the world. Founded upon a deeply perceptive observation of the late founding Prime Minister of Singapore Lee Kuan Yew, this book brings shape to the idea that 'to understand the present and to anticipate the future, one must know enough of the past, enough to have a sense of the history of a people.' With an approachable writing style and comprehensive content, this unique text was written for business readers interested in improving their understanding of this important region. With globalization continuing to gain momentum, south-east Asia is emerging as an important business sector for many industries. Not only does this open up professional opportunities, it exposes individuals in other parts of the world to the unique histories and cultures of the area. If you are interested in learning more about the region, this abbreviated text is a wonderful resource. Explore historic and political developments that have taken place throughout south-east Asia Quickly navigate text organized by country, allowing you to dive into the events that have shaped Brunei, Cambodia, East Timor, Indonesia, Lao PDR, Malaysia, Myanmar, the Philippines, Singapore, Thailand, and Vietnam Gain an important global perspective, which can prove valuable on personal and professional levels Leverage your new understanding of the region's past to better understand its present and anticipate its future A Short History of South-East Asia, Sixth Edition is an abbreviated history of south-east Asia written with business readers in mind.

This book sketches an outline of Southeast Asian history from earliest times to the present, showing how the diverse political, economic, social, and cultural patterns developed over several thousand years and the role played by the region in the larger world. Approximately one third will be devoted to the centuries before 1500 CE, when civilizations and kingdoms emerged and some Southeast Asians became active in Asian and Pacific maritime trade networks. It discusses the connections to India and China, the great kingdoms such as Angkor, the maritime trade, and the emergence of diverse cultural traditions, including the Theravada Buddhist, Islamic, and Vietnamese realms. Another third covers the period of Western expansion and colonization between 1500 and 1941, when various Western nations began to gradually influence and then reshape the region and Southeast Asians became more deeply involved with world trade. This includes an extensive discussion of the impact of colonialism on Southeast Asian societies, cultures, economies and politics. The final third examines the rise of nationalism and independence movements, decolonization, the wars in Indochina, and the links between past, present, and future.

This comprehensive history provides a fresh interpretation of Southeast Asia from 100 to 1500, when major social and economic developments foundational to modern societies took place on the mainland (Burma, Thailand, Cambodia, and Vietnam) and the island world (Indonesia, Malaysia, and the Philippines). Incorporating the latest archeological evidence and international scholarship, Kenneth R. Hall enlarges upon prior histories of early Southeast Asia that did not venture beyond 1400, extending the study of the region to the Portuguese seizure of Melaka in 1511. Written for a wide audience of non-specialists, the book will be essential reading for all those interested in Asian and world history.

Written with rare mastery and a sure sense of the essential, this concise general history of modern East Asia offers students and general readers an understanding of this dynamic region from a global perspective. It is the ideal introductory text for college survey courses in Asian and international studies.Following an introductory discussion of the regional concept, the first two chapters lay the foundations. Chapter 1 describes East Asia's geographical, human, cultural, economic, social, and political setting as it has evolved over the past several millennia, and the three major belief systems - Confucianism, Buddhism, and Islam. Chapter 2 presents a panoramic view of the region ca. 1800. The chapter introduces the "dramatic personas" - the Chinese, Japanese, Koreans, Vietnamese, Thai, Burmese, Indonesians, Filipinos, and others - and describes their interactions with each other and with Imperial China.The following three chapters deal with European expansionism and East Asians' responses to the civilizational challenge: the stirrings of nationalism in reaction to European colonial rule; and the remarkable rise of Imperial Japan. Chapters 6 and 7 trace Japan's bid to lead a pan-Asianist revolt against the twin threats of Western liberalism and Soviet communism, and the ensuing Pacific War. Chapters 8 and 9 span the cold war era, from postwar U.S. hopes for a "Pax Americana" to the division of East Asia into communist and anti-communist blocs. The Sino-Soviet split and the Sino-American rapprochement of the early 1970s open the way to the "East Asian miracle" and a resurgence of East Asian regionalism, surveyed in Chapter 10. A concluding chapter considers the prospects for continued economic dynamism and the balance of nationalism and pan-Asian trends in shaping the future.
