travelogues that created  
the idea of Texas.

Focusing on the forty-  
year period between

Mexico's independence  
from Spain (1821) and

the beginning of the US  
Civil War, Astrid Haas

explores accounts by

Anglo-American,

Mexican, and German authors—members of the region's three major settler populations—who recorded their journeys through Texas. They were missionaries, scientists, journalists, emigrants, emigration agents, and military officers and their spouses. They all contributed to the public image of Texas and to

debates about the future of the region during a time of political and social transformation.

Drawing on sources and scholarship in English, Spanish, and German, Lone Star Vistas is the first comparative study of transnational travel writing on Texas. Haas illuminates continuities and differences across the global encounter

with Texas, while also highlighting how individual writers' particular backgrounds affected their views on nature, white settlement, military engagement, Indigenous resistance, African American slavery, and Christian mission.
