An overview of associated key signs and salient features to look for on oral exam is provided as well as other clinical manifestations, differential diagnoses, and treatment recommendations. The mouth is an important anatomical location with a role in many critical physiologic processes that are frequently involved in conditions that affect the skin or other organ systems. In many instances, oral manifestations of a disease precede the appearance of other stigmata. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today.
