For almost twenty years of writing poetry and random thoughts, freedom has truly had its cost. Finally, after four decades, Tete-a-Tete has happened. From the most private conversations come some of the most gut-wrenching, unrefined questions, awaiting untreated honest, answers that may also happen for you standing in front of a mirror of your own. En 2010 N. A` Campo presentó la noción de grafo tête-à-tête puro con el objetivo de modelar las monodromías de curvas planas. Estos son grafos ribbon sin vértices univalentes que satisfacen una propiedad especial. Si piensas en el grafo ribbon como en un retrato de la superficie con borde asociada, la propiedad tête-à-tête te dice que empezando en cualquier punto y caminando una distancia fija en cualquier dirección y siempre girando a la derecha en cualquier vértice, llegas al mismo punto. Esta propiedad define un elemento del mapping class group a frontera fija que es periódico a frontera libre. Este elemento es el tête-à-tête twist asociado con el grafo.El trabajo empieza con la teoría preliminar necesaria para entender el resto de contenidos. Todos los resultados de esta parte son conocidos. Consiste de los primeros cinco capítulos. Después, presentamos las definiciones originales de grafos tête-à-tête de A¿Campo.Mostramos que la propiedad tête-à-tête induce un automorfismo

periódico del grafo ribbon y un automorfismo periódico a frontera libre en el engordamiento del grafo. Demostramos el primero de los resultados principales del trabajo el cual caracteriza las mapping classes que contienen algún representante tête-à-tête . Este resultado está contenido en un trabajo conjunto con J. Fernández de Bobadilla and M. Pe Pereira...

Every day, Franiois-Marie Banier leaves home with his camera and no preconceived notions, just an interest in what the world looks like that morning. Surveying the street from his moped, he focuses on faces and figures bearing the marks of a life with the power to touch his viewers' emotions--a street cleaner with the demeanor of a heroic mythological warrior, lonely figures out for a stroll, passers-by, couples--all have lived through trials at which we can only guess. Banier's largely black-and-white work has been seen throughout Europe, including at the Centre Pompidou, and in Asia and Latin America. In addition to his work as a photographer, he is a novelist and playwright.

They are one of the world's legendary couples. Simone de Beauvoir and Jean-Paul Sartre - those passionate, free-thinking Existentialist philosopher-writers - had a committed but notoriously open union

that generated no end of controversy. Through original interviews and access to new primary sources, Hazel Rowley portrays them up close: we witness Beauvoir and Sartre with their circle, holding court in Paris cafés. We learn the details of their infamous romantic entanglements with the young Olga Kosakiewicz and others; of their efforts to protest the wars in Algeria and Vietnam; and of Beauvoir's tempestuous love affair with Nelson Algren. We hear the anguished discussions that would lead to Sartre's refusal of the Nobel Prize and listen in on the couple as they comment on each other's great works. The impact of their writings on modern thought can hardly be overestimated, but Beauvoir and Sartre are remembered just as much for the lives they led. Theirs is a great story - and a great story is precisely what Beauvoir and Sartre most wanted their lives to be.
