A valuable resource for journalists, students, and scholars of international communication, Journalism across Borders explores how journalists in the border regions of Europe navigate different journalistic cultures and the lack of established routines. Drawing on dozens of interviews and newsroom observation, Kevin Grieves addresses an overlooked but important aspect of international journalism by examining how journalists carry out their daily work in the transnational and regional transborder context.

In the aftermath of the collapse of the Ottoman Empire, the Kurds were promised their own state. However, several factors meant that this dream never became a reality, and the land of the Kurds was divided. Amid a sense of a loss of identity, the Kurds started to fight for their social and political rights. 'Kurdish Politics in Turkey' argues that the Kurdish struggle has largely been a failure, and that the emergence of the Unions of Communities in Kurdistan (KCK) has been a direct result of this. The book examines the success of the KCK and how it has transformed this Kurdish struggle in Turkey from a one-dimensional political movement, to a multi-dimensional social movement.

What is it about certain books that makes them bestsellers? Why do some of these books remain popular for centuries, and others fade gently into obscurity? And why is it that when scholars do turn their attention to bestsellers, they seem only to be interested in the same handful of blockbusters, when so many books that were once immensely popular remain under-examined? Addressing those and other equally pressing questions about popular literature, Must Read is the first scholarly collection to offer both a survey of the evolution of American bestsellers as well as critical readings of some of the key texts that have shaped the American imagination since the nation's founding. Focusing on a mix of enduring and forgotten bestsellers, the essays in this collection consider 18th and 19th century works, like Charlotte Temple or Ben-Hur, that were once considered epochal but are now virtually ignored; 20th century favorites such as The Sheik and Peyton Place; and 21st

"Nothing will be the same again." Americans scarred by the experience of 9/11 often express this sentiment. But what remains the same, argues Jack Shaheen, is Hollywood's stereotyping of Arabs. In his new book about films made after 9/11, Shaheen finds that nearly all of Hollywood's post-9/11 films legitimize a view of Arabs as stereotyped villains and the use of Arabs and Muslims as shorthand for the "Enemy" or "Other." Along with an examination of a hundred recent movies, Shaheen addresses the cultural issues at play since 9/11: the government's public relations campaigns to win "hearts and minds" and the impact of 9/11 on citizens and on the imagination. He suggests that winning the "war on terror" would take shattering the centuries-old stereotypes of Arabs, and frames the solutions needed to begin to tackle the problem and to change the industry and culture at large.
