Author Reverend Paul Lachlan Peck believes that millstones can be turned into milestones that adverse experiences can become opportunities for spiritual growth and magnificent manifestations. By listening to the small voice of Spirit, God, you too can overcome the millstones in your own life. Peck explores the intriguing ideas and puzzling questions of New Age teachings in this revised volume, originally titled Intermediate Spiritual Metaphysics. By examining the positive forces that manifest throughout the four major quadrants of life: health, wealth, work, and love, Peck also shows how these forces work within the four primary institutions: church, finance, government, and education. The Judaic-Christian student of New Age theology will find answers to complex spiritual questions in this easy-to-read book that has been divided into the following three sections: Part One considers dharma, karma, reincarnation, and life between lives. Part Two discusses the governance, authority, and responsibility of the universe. Part Three devotes itself to the Revelation of St. John the Divine, the teachings that relate to daily spiritual life. Milestones of the Way will provide you with an empowerment that heals and ultimately advances you on a path toward spiritual contentment.

Current applied linguistic research generally supports the adoption of interdisciplinary approaches in education with the objective of enhancing learners' progress and teachers' practices. In this spirit, this edited volume explores the issue of cross-curricular learning and teaching from a wider perspective. The twenty-three papers collected here are categorised in four thematic units, all of which, however, share a common feature: they focus on interdisciplinary learning and promote the integration of knowledge and skills from various subject areas. As such, all the papers brought together in this volume, thus, emphasise the interconnectedness of knowledge and ideas in primary, secondary and tertiary education. The theme of Cross-Curricular Teaching and Learning is related in this volume to Intercultural Education, to Content and Language Integrated Learning, and to Information and Communication Technology (ICT). The book will be of interest to scholars who are interested in relevant research-based data and results, and to educators who wish to update their knowledge about cross-curricular teaching and improve their language teaching practices.

The Roadmap series works as a year-long companion to earning higher grades, as well as passing the high-stakes 6th Grade Reading and Writing Ohio Proficiency Test that is necessary for grade level promotion.
