Keen to learn but short on time? Get to grips with the life of Margaret Thatcher in next to no time with this concise guide. 50Minutes.com provides a clear and engaging analysis of Margaret Thatcher. In the 1970s, the United Kingdom was struggling economically in comparison with its stronger European counterparts. Thatcher, the country's first female Prime Minister, recognised the need for drastic economic reform, despite its potential to cause social upheaval. Known for her inflexible and unemotional stance in the face of strikes, the deaths of IRA prisoners, a violent war in the Falklands and even a narrow escape from a bomb in her bedroom, Thatcher remains a divisive figure in politics. In just 50 minutes you will: • Learn about the background of the United Kingdom's famous first female Prime Minister, the Iron Lady • Gain a deeper understanding of Thatcherism, the collective name for Thatcher's economic and social reform policies • Discover the measures taken by Thatcher during her time in power in both domestic and foreign policy ABOUT 50MINUTES.COM | History & Culture 50MINUTES.COM will enable you to quickly understand the main events, people, conflicts and discoveries from world history that have shaped the world we live in today. Our publications present the key information on a wide variety of topics in a quick and accessible way that is guaranteed to save you time on your journey of discovery.

The Iron Lady, the definitive Margaret Thatcher biography, is available just in time for the movie starring Meryl Streep as one of the most infamous figures in postwar politics. Whether you love her or hate her, Margaret Thatcher's impact on twentieth-century history is undeniable. From her humble, small-town upbringing to her rise to power as the United Kingdom's first female prime minister, to her dramatic fall from grace after more than three decades of service, celebrated biographer John Campbell delves into the story of this fascinating woman's life as no one has before. The result of more than nine years of meticulous research, The Iron Lady is the only balanced, unvarnished portrait of Margaret Thatcher, one of the most vital and controversial political figures of our time.

Margaret Thatcher is one of the most significant political figures of the twentieth century—a Prime Minister whose impact on modern English history is comparable only to Winston Churchill's. Like them or not, her radical policies made Britain the country it is today. And like her or not, Margaret Thatcher's legacy remains a massive political force, responsible for laying the groundwork for New Labour, Tony Blair, and David Cameron, and for England's strong political allegiance to the United States throughout the Cold War. Now Robin Harris, for many years Mrs. Thatcher's speechwriter, close adviser, and the draftsman of both volumes of her autobiography, has written the definitive book about this indomitable English woman. In this international bestseller, he tells the compelling story of her life, from humble beginnings above her father's grocery store in Grantham, her early days as one of the first women in Westminster (she became known as "Thatcher Milk Snatcher" during her time in the Ministry of Education), and then on to her groundbreaking career as Prime Minister (by which time her reputation already demanded a more powerful epithet: "Iron Lady"). We follow Thatcher through hard-fought political battles and experience with her the tribulations of the English miners' strike and the Falklands War, of her sometimes troubled friendship with Ronald Reagan, and their shared staunch opposition to Communism. We learn of the political intrigue behind the scenes at Ten Downing Street. And how during one of the darkest hours of her premiership she refused to alter course and, adapting the words of an English play, declared to her enemies, inside and outside the Government, "You turn if you want to. The Lady's Not for Turning," summing up for admirers and detractors alike the defiance and consistency of Mrs. Thatcher's approach. Throughout Not for Turning we sense the passionate intellect which fuelled her ambitions, drove her into and out of one of the highest offices in the English-speaking world, and has established a unique political legacy that continues even after her death... Not for Turning is an unforgettable portrait of Britain's first female Prime Minister, written by one of her most trusted advisers, and a fitting tribute to an extraordinary politician and leader.

This first volume of Margaret Thatcher's memoirs encompasses the whole of her time as Prime Minister - the formation of her goals in the early 1980s, the Falklands, the General Election victories of 1983 and 1987 and, eventually, the circumstances of her fall from political power. She also gives frank accounts of her dealings with foreign statesmen and her own ministers.

There are many myths about Margaret Thatcher's extraordinary personality and political career. But what was it really like to work with her? In The Real Iron Lady: Working with Margaret Thatcher, Gillian Shephard speaks to an eclectic and distinguished range of Mrs T.'s former colleagues; all offer a unique insight into what the Iron Lady was really like at close quarters. Among them are John Major, Geoffrey Howe, Douglas Hurd and other Cabinet colleagues, alongside an ambassador and senior civil servants. In addition, prominent Conservative Party members, distinguished journalists and a leading trade unionist add their views, as well as MPs, political advisers and Downing Street staff. A French perspective is even provided by Hubert Védrine, foreign minister to erstwhile President François Mitterrand. Gillian Shephard has laced this miscellany of recollections of the Iron Lady with her own sparkling wit and acerbic comments - resulting in a fascinating close-up portrait of Britain's first woman Prime Minister. Most importantly, it is a portrait painted by the people who were with her throughout the dramas of her political career: the Falklands conflict, the miners' strike, the Brighton Bomb outrage and, eventually, her downfall. The book, with its wealth of previously unpublished material, portrays Margaret Thatcher as a woman of contrasts: courageous, kind, ferocious, feminine - and so far, unsurpassed.

Traces the life of Britain's controversial prime minister, explains how she became involved in politics, and looks at the accomplishments of her administration

Margaret Thatcher's premiership changed the face of modern Britain. Yet few people know of the critical role played by Jews in sparking and sustaining her revolution. Was this chance, choice, or simply a reflection of the fact that, as the Iron Lady herself said: 'I just wanted a Cabinet of clever, energetic people and frequently that turned out to be the same thing'? In this book, the first to explore Mrs Thatcher's relationship with Britain's Jewish community, Robert Philpot shows that her regard did not come simply from representing a constituency with more Jewish voters than any other, but stretched back to her childhood. She saw her own philosophical beliefs expressed in the values of Judaism - and in it, too, she saw elements of her beloved father's Methodist teachings. Margaret Thatcher: The Honorary Jew explores Mrs Thatcher's complex and fascinating relationship with the Jewish community and draws on archives and a wide range of memoirs and exclusive interviews, ranging from former Cabinet ministers to political opponents. It reveals how Immanuel Jakobovits, the Chief Rabbi, assisted her fight with the Church of England and how her attachment to Israel led her to internal battles as a member of Edward Heath's government and as Prime Minister, as well as examining her relationships with various Israeli leaders.

BANG! BANG! BANG! went the guns of the Tin-Pot Foreign General BANG! BANG! BANG! went the guns of the Old Iron Woman Raymond Briggs's visceral take on the Falklands War is uncompromising in its dark and moving satire of the build-up and aftermath of the conflict. This controversial book's infamous stars - General Leopoldo Galtieri and Margaret Thatcher - are depicted as robotic caricatures with a pointless blood lust. Now available as an eBook for the first time.
