There is a tongue under the water. (Dan Beachy-Quick, “ This Nest, Swift Passerine ”) The anthology The Arcadia Project: North American Postmodern Pastoral, edited by Joshua Corey and G.C. Waldrep, takes on an ambitious task. Its aim is no less than the reformulation of the pastoral for contemporary times, and, while there are flaws in the outcome, the book itself is rich, complex and inventive.

In the third book of the Nebula Award–nominated Arcadia Project series, which New York Times bestselling author Seanan McGuire called “ exciting, inventive, and brilliantly plotted, ” Millie Roper has to pull off two impossible heists—with the fate of the worlds in the balance. Three months ago, a rift between agents in London and Los Angeles tore the Arcadia Project apart. With both fey Courts split down the middle—half supporting London, half LA—London is putting the pieces in place to quash the resistance. But due to an alarming backslide in her mental health, new LA agent Mille Roper is in no condition to fight. When London ’ s opening shot is to frame Millie ’ s partner, Tjuan, for attempted homicide, Millie has no choice but to hide him and try to clear his name. Her investigation will take her across the pond to the heart of Arcadia at the mysterious and impenetrable White Rose palace. The key to Tjuan ’ s freedom—and to the success of the revolution—is locked in a vault under the fey Queen ’ s watchful eye. It ’ s up to Millie to plan and lead a heist that will shape the future of two worlds—all while pretending that she knows exactly what she ’ s doing...

Poetry. In the flowing SUSQUEHANNA, language has been re-immersed in its origins. It is a coursing where "this human industry / compressed into earth- / rudders second emptiness / braids a fist." SUSQUEHANNA offers an intermingling of meaning's tributaries where our human violations of nature are plunged into the currents of an irreconcilable otherness, "a theft unhands / what had been / (interstitial) / pine-marowed // phantom limb."

A cynical, disabled film director with borderline personality disorder gets recruited to join a secret organization that oversees relations between Hollywood and Fairyland in this Nebula Award–nominated and Tiptree Award Honor Book that ’ s the first novel in a new urban fantasy series from debut author Mishell Baker. A year ago, Millie lost her legs and her filmmaking career in a failed suicide attempt. Just when she ’ s sure the credits have rolled on her life story, she gets a second chance with the Arcadia Project: a secret organization that polices the traffic to and from a parallel reality filled with creatures straight out of myth and fairy tales. For her first assignment, Millie is tasked with tracking down a missing movie star who also happens to be a nobleman of the Seelie Court. To find him, she ’ ll have to smooth-talk Hollywood power players and uncover the surreal and sometimes terrifying truth behind the glamour of Tinseltown. But stronger forces than just her inner demons are sabotaging her progress, and if she fails to unravel the conspiracy behind the noble ’ s disappearance, not only will she be out on the streets, but the shattering of a centuries-old peace could spark an all-out war between worlds. No pressure.

An epic meditation on contemporary American catastrophe and struggle

The Norwegians who immigrated to Seattle were a sturdy stock. Perhaps it was due to their ancient history as determined Viking seafarers--or their more recent experiences as tenacious fishermen, farmers, loggers, and carpenters. From the first Norwegians to arrive in 1868 through today, Seattle's Norwegian American community has maintained a remarkable cohesiveness. They participate in Sons and Daughters of Norway and other clubs; enjoy lutefisk dinners, lively music and dance groups, and the annual May 17 parade; boast elaborately knitted sweaters and historic costumes; and labor over language classes and genealogy. The result is a pride of heritage unique to the Norwegian Americans in Seattle and a sinew that binds their community.

In the early 1950s, Pruitt-Igoe, a vast public housing project, arose on 57 acres on the near north side of St. Louis. Barely 20 years after construction, the 33 eleven-story buildings that made up the complex were razed, and the vacant land that was once home to thousands of people was gradually reclaimed by a dense, neglected urban forest. What happened in-between is a story that tempts but also defies simple narratives. It is a story of interweaving and competing accounts, both then and now. This volume approaches Pruitt-Igoe with all of its contradiction in mind. Alongside iconic images, other seldom-seen photographs flesh out the history in sometimes surprising ways and, in doing so, preserve some of the stories that are in danger of being permanently erased and lost, just as Pruitt-Igoe was.

In the wake of the Mexican-American War, competing narratives of religious conquest and re-conquest were employed by Anglo American and ethnic Mexican Californians to make sense of their place in North America. These “ invented traditions ” had a profound impact on North American religious and ethnic relations, serving to bring elements of Catholic history within the Protestant fold of the United States ’ national history as well as playing an integral role in the emergence of the early Chicano/a movement. Many Protestant Anglo Americans understood their settlement in the far Southwest as following in the footsteps of the colonial project begun by Catholic Spanish missionaries. In contrast, Californios—Mexican-Americans and Chicana/os—stressed deep connections to a pre-Columbian past over to their own Spanish heritage. Thus, as Anglo Americans fashioned themselves as the spiritual heirs to the Spanish frontier, many ethnic Mexicans came to see themselves as the spiritual heirs to a southwestern Aztec homeland.

Definitive and daring, The Ecopoetry Anthology is the authoritative collection of contemporary American poetry about nature and the environment--in all its glory and challenge. From praise to lament, the work covers the range of human response to an increasingly complex and often disturbing natural world and inquires of our human place in a vastness beyond the human. To establish the antecedents of today's writing, The Ecopoetry Anthology presents a historical section that includes poetry written from roughly the mid-nineteenth to the mid-twentieth century. Iconic American poets like Walt Whitman and Emily Dickinson are followed by more modern poets like Wallace Stevens, William Carlos Williams, Ezra Pound, and even more recent foundational work by poets like Theodore Roethke, Elizabeth Bishop, Robert Hayden, and Muriel Rukeyser. With subtle discernment, the editors portray our country's rich heritage and dramatic range of writing about the natural world around us.

This is how the witness ends: touch, withdraw; touch again. 'American Goshawk', the opening poem in this collection, concludes with these words. The word 'witness' comes with a wealth of meanings. The poems are, at one level, acute observations of the world in its physical and dramatic detail. But eye and ear detect, in what is there, shadows and figures of what is beyond, what imparts to the things perceived their deeper form, significance and beauty. Such seeing is a craft, a form of translation that engages not just the surface but the essence of what is seen, what the poet calls 'eye-proofs of the

epiphenomenal world'. The ophthalmologist in 'A Mystic's Guide to Arches' keeps asking, 'Can you see this?' And we can, seeing it more fully each time we re-read the poem and the separate things configure into a single, powerful seeing. Language obscures - until it releases what it names to the senses. The Earliest Witnesses is G.C. Waldrep's British debut.
