West Virginia, 1966. For thirteen months the town of Point Pleasant is gripped by a real-life nightmare that culminates in a strategy that makes headlines around the world. Strange occurrences and sightings, including a bizarre winged apparition that becomes known as the Mothman, trouble this ordinary American community. Mysterious lights are seen moving across the sky. Domestic animals are found slaughtered and mutilated. And journalist John Keel, arriving to investigate the freakish events, soon finds himself an integral part of an eerie and unfathomable mystery... At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Someone, we know not who, once called Jadoo "the greatest book ever written on the black magic of the Orient." But we do know that there will never again be another book like it. Jadoo, a Hindi word meaning "Black Magic," captures a world that is now lost to us—the strange, dark, mysterious world that was once called the "Orient." This story of a real-life Indiana Jones of the 1950s named John Keel contains everything but a trip to Venus in a flying saucer--a subject our newsman/explorer would become famous for a decade later. In Egypt, the fearless Keel was cursed by a mummy and befriended members of a strange snake-charming cult. In Iraq, he played Russian roulette with a notorious desert bandit and lived among the Yeziidi devil-worshippers. Later, in India, he was buried alive and discovered the secret of the Indian rope trick, which he then performed for incredulous reporters in New Delhi. And in a riveting finale, he chased the Abominable Snowman through the little known Himalayan kingdom of Sikkim before being unceremoniously booted out of Singapore for being "an undesirable alien." This new edition contains material never before published. "One of the most traveled and imaginative raconteurs since Baron Munchausen." -- San Francisco Examiner "Here is a fireside adventure with a chill in it." -- Buffalo Evening News "A fabulous tour of Egypt, the Middle East, India, and Tibet." -- Hartford Times ...". a combination of cliff-hanging experiences with serious probing for the bizarre, the secretive, and the enigmatic." -- Kirkus

During the late 1960s and early 1970s, when he was subject to nonstop surveillance and harassment from both human and supernatural spooks, intrepid Fortean investigator John A. Keel made extensive field notes concerning the phenomena he was confronting in West Virginia and New York: UFOs, Men in Black, creature entities, ultraterrestrials, and odd coincidences and synchronicities. The result was a series of concise, thematically related reports, many of which were incorporated into magazine articles for Saga, Fate, Flying Saucer Review, and Flying Saucers magazine. In those articles, Keel unraveled threads discussed in his classic books "Operation Trojan Horse," "The Mothman Prophecies," and "The Eighth Tower," which were written soon after. Utilizing occult lore, recent scientific research, and direct personal investigation, Keel drew back the curtain on the mind-blowing nature of our terrestrial reality. In this volume, we look at Keel's favorite articles from Flying Saucers magazine, which was published and edited largely by Ray Palmer. Keel went on record as saying that he thought Palmer was the "father of ufology," and he helped Palmer by submitting many articles to the magazine, and even helping with editing chores whenever possible. This special Keel-curated edition features interesting articles by Keel, Palmer, Brad Steiger, Gray Barker, Brent Raynes, Peter Gutilla, William Cullen, Larry Bryant, Alois Knapp, Tom Lingham, Jennifer Stevens, Erich Aggen, Jr., Dennis Stamey, Alberto Perego, T. Scott Crain, and Hans Lauritzen. "The intersection of science and creative thinking..." -High Times "A great collection of classic articles from the field of ufology..." -UFO Magazine "A look back at a very interesting time in UFO history..." -MUFON Journal

A collection of the wit and wisdom of Fortean scholar and Mothman maven John Keel taken from his days as a columnist for FATE magazine. Keel tackles the mysteries of the universe in such chapters as "Is There a Ghost in Your Computer?" "Phantom Circuses," "Dumb Animals and Smart Planets," "Kooky Spooks," "The Thunderbird Rises From the Ashes," and "Who Is on the Moon?"

Brent Raynes' newest book, John A. Keel: The Man, The Myths, and the Ongoing Mysteries, chronicles the life of influential ufologist and American journalist, John A. Keel. The Mothman Prophecies movie (2002), a supernatural thriller starring Richard Gere, was loosely based on Keel's book of the same title. Brent had established a personal relationship with John Keel in 1969. Shortly after the movie's release, both men discussed its portrayal of Keel's book. Overall, Keel was satisfied that the movie had effectively captured both the essence of the foreboding atmosphere surrounding Point Pleasant, and the varied, inexplicable occurrences that residents experienced during that period.What sets Raynes' remarkable book apart from other books about Keel's life and work is both his personal relationship with Keel, and his unique, conversational, and intimate writing style. Raynes' book describes additional mysterious occurrences surrounding the legend of the Mothman Prophecies, similar to the cases in the movie. Join Raynes as he explores the true and incredible events Keel investigated. Keel's pioneering work continues to influence the author in addition to researchers who carry on studies of these "ongoing mysteries."

John Keel's disturbing follow-up to THE MOTHMAN PROPHECIES Is there a single intelligent force behind all religious, occult, and UFO phenomena? Strange manifestations have haunted humans since prehistoric times. Beams of light, voices from the heavens, the "little people," gods and devils, ghosts and monsters, and UFOs, have all had a prominent place in our history and legends. In this dark work, John Keel explores these phenomena, and in doing so reveals the shocking truth about our present position and future destiny in the cosmic scheme of things. Are we pawns in a celestial game? In the Orient, there is a story told of the seven towers. These citadels, well hidden from mankind, are occupied by groups of Satanists who are chanting the world to ruin. Perhaps this is just a story; perhaps there is some truth behind it. But what if there is yet another tower, a tower not of good or evil but of infinite power? What if all our destinies are controlled by this cosmic force for its own mysterious purposes? And what if UFOs and other paranormal manifestations are merely tools being used to manipulate us and guide us toward the cosmic role we are fated to play? Perhaps, after all, we are not independent beings but are instead the creations and slaves of the eighth tower.

The first book to tell the story of one of the world's most influential media businesses, The Family Business draws on more than 70 interviews with company insiders as well as book-industry luminaries to present the Ingram story and how a little-known Nashville-based company grew to play a pivotal role in transforming book publishing around the world. The history of the Ingram Content Group is one of the most important and remarkable business stories that almost no one knows. Launched as a favor to a family friend, it started as a local textbook distributor—one tiny division within a thriving corporation focused on oil, construction supplies, and shipping. It grew into the world's largest book wholesaler, then into the most influential and innovative supplier of infrastructure and services to publishers around the world. Over the past 50 years, from its headquarters in Nashville, Tennessee, Ingram has played a pivotal role in modernizing the book business. Two members of the founding family have led the way: Bronson Ingram, a tough-minded industrialist who instinctively recognized a golden opportunity to apply modern efficiencies to antiquated logistical systems, and Bronson's son John Ingram, an "intrapreneur" with a keen understanding of both the opportunities and the risks created by the new digital technologies. Led by these two brilliant managers, Ingram has used its unparalleled industry-wide connections to help transform book publishing from a tradition-bound business into a dynamic, global twenty-first century powerhouse. Now, for the first time, The Family Business captures the whole story. In its pages, readers will learn about: the introduction of the Ingram microfiche reader in 1972 and how it catapulted book retailing into the electronic era Ingram's network of coast-to-coast distribution centers turning U.S. book publishing into a truly national business for the first time Ingram using fast-growing video, software, magazine, and international wholesaling operations to create a phenomenal record of expansion, growing from a million-dollar company into a billion-dollar giant in just two decades Two of book publishing's most powerful organizations—Ingram and Barnes & Noble—almost coming within a hair's breadth of merging, and how the deal fell apart at the eleventh hour Ingram's unparalleled ability to rapidly fulfill product orders empowering Amazon's unique customer service model and enabling its explosive growth Lightning Source, a technological marvel spawned by Ingram, converting the "long tail" of niche books from a costly headache for publishers and retailers into a steady source of profitable sales Ingram's transformation of the book supply chain enabling countless booksellers and publishers to survive and even thrive in the disruptive era of Covid-19 Today, with Ingram's expanding portfolio of service and infrastructure businesses playing an ever-growing role in the world of publishing, the company stands ready to help lead the industry into an era of even more dramatic change. The Family Business is the first book to recount the story of this strategic powerhouse that everyone in the publishing industry does business with, and that practically everyone admires—but that few people really understand. A must-read for people in the book business and the world of media, and anyone else who wants to understand how this vastly influential industry really works, this book fascinates with the story of the ways today's electronic information technologies are transforming the world.

New Saucerian Press proudly presents John Keel's "The Book of Mothman: Everything You Ever Wanted to Know About Reality Distortion But Were Afraid to Ask." The chapters in this Keel-approved collection, culled from New Saucerian's four recently published "Selected Writings of John Keel" books ("Flying Saucer to the Center of Your Mind," "The Outer Limits of the Twilight Zone," "Searching For the String," and "The Great Phonograph in the Sky"), coalesce to create a dazzling, mind-blowing "unified theory" concerning the parapsychical distortions and "glitches" seemingly invading our reality. Many of the articles in "The Book of Mothman" were written years before Keel's "Mothman Prophecies," while others were written years afterwards, making it a very unique and valuable source. With the addition of several 1990s lectures and an interview from 2003 - Keel's last on Mothman - researchers and enthusiasts gain a better sense of just what was going on in West Virginia and the Ohio Valley in the 1960s and '70s. True to form, Keel takes on the endless variety of high-strangeness surrounding Mothman and Mothman witnesses, such as UFOs, MIBs, little green men, hairy monsters, giants, animal mutilations, hypnotism, shapeshifting, psychological warfare, missing time, and phantom aircraft, automobiles, and humans. This special edition features a brilliant introduction by Gray Barker, a recently discovered foreword by John Keel, and a note from the editor, Andy Colvin. "As good an example of pure, unadulterated Keel as you are likely to find..." -Robert Durant, Pursuit Magazine "Decades ahead of all the "respectable" Forteans and ufologists..." -UFO Magazine "Exposes the dark workings of the Mind Parasites..." -William S. Burroughs "Interesting and informed speculation..." -Brad Pitt

John A. Keel has been entertaining, amazing, and infuriating readers since the 1940s. There's nobody quite like him; he's as such an anomaly as the puzzling creatures and events that he's been reporting on all these years. This collection offers a lively sample of Keel's "Beyond the Known," the column he wrote for FATE for many years. Whether it was cryptozoology, World War II enigmas, fairies and wee folk, or things falling from the sky, Keel was always ready to hop into a car and track down weirdness wherever it was happening. His wide range of interests - magic, comedy, religion, technology, philosophy, biology - give him a broad outlook and keep him curious. Keel has been a consultant for the Army and Air Force; science editor for Funk & Wagnalls; and a writer for television talk shows and sitcoms. He has received honorary Ph.D.'s for his work in herpetology and archaeology. Keel's startling ideas, hard-won by primary research, fieldwork, and footwork, have kept him controversial, with equally noisy admirers and detractors. Believers and non-believers alike will enjoy the playful banter Keel uses to encourage all his readers to question their beliefs and the nature of reality.
