Author of cult classics The Pumpkin Plan and The Toilet Paper Entrepreneur offers a simple, counterintuitive cash management solution that will help small businesses break out of the doom spiral and achieve instant profitability. Conventional accounting uses the logical (albeit, flawed) formula: Sales - Expenses = Profit. The problem is, businesses are run by humans, and humans aren't always logical. Serial entrepreneur Mike Michalowicz has developed a behavioral approach to accounting to flip the formula: Sales - Profit = Expenses. Just as the most effective weight loss strategy is to limit portions by using smaller plates, Michalowicz shows that by taking profit first and apportioning only what remains for expenses, entrepreneurs will transform their businesses from cash-eating monsters to

profitable cash cows. Using Michalowicz's Profit First system, readers will learn that: - Following 4 simple principles can simplify accounting and make it easier to manage a profitable business by looking at bank account balances. - A small, profitable business can be worth much more than a large business surviving on its top line. - Businesses that attain early and sustained profitability have a better shot at achieving long-term growth. With dozens of case studies, practical, step-by-step advice, and his signature sense of humor, Michalowicz has the game-changing roadmap for any entrepreneur to make money they always dreamed of.

"I don't have time to look at the numbers." "That's what the accountant is for." "I can see what the balance is--that's all I need to know." Why do so many business owners dread looking at the numbers? Financial statements, ledgers, profit and loss reports--many avoid these and treat them like junk mail and phone solicitors. But as a small business owner, having an intimate knowledge of all these crucial numbers yourself is the most important tool you can equip yourself with in order to survive the constantly changing and highly competitive marketplace of the twenty-first century. Nevertheless, it's true--you're not a numbers person. How can you learn to make sense out of all this Greek? Accounting for the Numberphobic to the rescue! This easy-to-follow guide demystifies your company's financial dashboard: the Net Income Statement, Cash Flow Statement, and Balance Sheet. The book explains in plain English how each measurement reflects the overall health of your business--and impacts your decisions. Even self-proclaimed numbers dummies will discover:

- How your Net Income Statement is the key to growing your profits
- How to identify the break-even point that means your business is self-sustaining
- Real-world advice on measuring and increasing cash flow
- What the Balance Sheet reveals about your company's worth
- And more

Don't leave your company's finances entirely in the hands of a third-party accounting service or an employee who is only loyal to the highest paycheck. Even worse--don't ignore them altogether! Knowing the numbers yourself isn't just about seeing how your company is doing . . . it's about knowing where it is going--and guiding it toward the highest profits possible.
