In 1994, Robert Black was convicted of the kidnapping, sexual assault and murder of three young girls, and sentenced to life imprisonment with a minimum tariff of thirty-five years; in 2011 he was convicted of a fourth such killing. He died in HMP Maghaberry, Northern Ireland, in January 2016, aged sixty-eight, unmourned, and entirely unrepentant of his repellent crimes. These bald facts, horrific as they are, do not begin to scratch the surface of the truth about Robert Black, a Scottish-born serial killer who undoubtedly committed further murders for which he was never tried, both in this country and on the Continent. In this ground-breaking account, Robert Giles, who has spent years tracing the killer's movements and sifting through all the evidence, including transcripts of the trials, convincingly argues that Black was an habitual serial killer over many years, and quite certainly responsible for more than the four child murders for which he was convicted. Co-written with Chris Clark, a former police intelligence officer whose tireless work into the Yorkshire Ripper produced convincing new evidence of other murders that went unnoticed or unrecorded, The Face of Evil shows once and for all that Robert Black was a serial killer whose crimes went far beyond what is generally believed. In doing so, it paints a portrait of human cruelty at its worst.

When the Tardis lands on an alien planet instead of Earth, the Doctor befriends Leela, a banished warrior of the Sevateem tribe, and he becomes entangled in a war between two tribes which has been instigated by an all-powerful computer, Xoanon, and he has to battle three enemies in order to set things right.

Ten-year-old Dina Frydman lives a comfortable middle class life with her family in Radom, Poland in the summer of 1939, just weeks before the Nazi invasion. The love of family and friends offer no protection against the menace of the Nazi regime that begins to siphon off the worldly and spiritual goods of Radom's Jews. We witness Dina's battle to survive and understand the deadly apocalypse that transforms her from an innocent child to a teenage/adult. When her family is deported and murdered at Treblinka she finds safety at a forced labor facility where she experiences her first taste of love when she at thirteen meets Natek Korman, a passionate sixteen year old who rekindles her will to live. Forced by the Nazis to separate, the young lovers vow to find each other after the war. From work camps to death camps, Dina survives against all odds. The aftermath of six years of death and destruction presents a new obstacle, how to live? With the war over Dina travels from a German castle to a DP facility and finally a school for orphans as she struggles to reclaim her life. In 1945, she is reunited with Natek Korman only to face the most important decision of her life. She chooses to follow her dream. *The Face of Evil* is a timeless story of the upheavals of war, the tenacious endurance of love and the resilience of the human spirit. It is an epic journey through the nightmare of the Holocaust-the single most defining moment in modern history, as told through the eyes of a young girl.

If you play games with a killer... you can't afford to lose. Looking for a subject for her book about evil, Lydia Tune travels to the infamous Mortem Asylum in seedy Decanten City. Her target is Jason Devere, a death row serial killer notorious for his precise and grotesque murders. Lydia is beautiful, ruthless and manipulative – she always gets what she wants. She knows the only way to get Jason to speak is to engage him in a dangerous battle of wits. Local detective and old friend Alex Gilbey warns her off the case, but he has no idea just how far Lydia will go to court darkness. The more Lydia digs into Jason's story, the clearer it becomes that there is a bigger story to uncover. But the problem with playing with killers is that they never play nice... A glittering and suspenseful debut psychological thriller, Face of Evil is impossible to put down.

ON 15 MAY 2017, IAN BRADY DIED IN HOSPITAL, ENTIRELY UNREPENTANT OF HIS EVIL CRIMES. WITH HIM ALMOST CERTAINLY DIED THE SECRET OF WHERE THE BODY OF TWELVE-YEAR-OLD KEITH BENNETT, THE LAST OF HIS AND MYRA HINDLEY'S YOUNG VICTIMS, LIES. Ian Brady was one of the most notorious and reviled serial killers in Britain. With his co-conspirator, Myra Hindley, he committed what became known as 'the Moors Murders' in which five children were abducted, assaulted and murdered. Dr Chris Cowley has a PhD in Cognitive Psychology and lectures in Forensic Criminology. He is in the unique position of having had exclusive access to Brady and, for six years, conducted groundbreaking research by corresponding with Brady and visiting him in prison. By gaining his trust, Cowley was able to take an unrivalled look inside the mind of a serial killer. This in-depth and revealing book reproduces letters and transcripts of conversations with Brady which, until the first edition came out, had never been published before. Using this fresh perspective and original material, Dr Cowley sheds new light on what went wrong in Brady's formative years to set him on a path of crime, and how Hindley became the lethal factor that started Brady's murder cycle. It also reveals Brady's unflinching account of being caught and convicted of serial murder, and his thoughts and emotions concerning Hindley, recorded as he moved into his second decade on hunger strike. This important study provides information that is essential to our understanding of the psychology of serial killers. By broadening our knowledge of these complex issues, we can increase the likelihood of catching murderers, and perhaps even prevent their terrible crimes from taking place.

This meticulously researched biography creates a complete and balanced picture of Reinhard Heydrich. A leading figure within the Nazi Party, he was responsible more than Himmler for the planning and execution of the Holocaust. Having joined the Nazi Party in 1931, Heydrich rose quickly through the ranks of the SS. By the age of twenty-nine he had become an SS Brigadier General, and his ruthless ambition led many senior Nazis to believe that he was the natural successor to Hitler. It was Heydrich's initiative to create the Einsatzgruppen, paramilitary units which were established before Operation Barbarossa to murder Jews and political operatives of the Communist party. In 1941 Heydrich was made Protector of Bohemia and Moravia. Supremely confident of his authority within the province, he would often drive alone in an open-top car. British-trained Czech partisans took advantage of this gesture, and in 1942 carried out a daring assassination attempt. Heydrich was mortally wounded in the ambush and died a week later in hospital. The reprisals that followed were brutal: more than 15,000 Czechs were murdered and the town of Lidice was razed to the ground. This book examines Heydrich's meteoric rise to power, his complex personality, and the aftermath of his death: Hitler's vengeance and the postwar fortunes of Heydrich's widow and descendants.

As a child, Petr Jasek (Peter Yash-ek) watched Soviet tanks roll through the streets of his village in Czechoslovakia, taking the country by force and subjecting it to decades of Communist oppression. Petr grew up in the underground church and benefitted from financial help and Bibles smuggled in to his family. As an adult living in the free Czech Republic, Petr chose to begin serving persecuted Christians—especially in Islamist hotspots in Africa and the Middle East. In 2015, he was arrested in Sudan, convicted as an enemy of the state, and sentenced to life in prison, where he was forced to share a group cell with ISIS terrorists. The true story of what God did in and through Petr has already inspired tens of thousands around the world. Now, for the first time, Petr tells the whole story.

The popular media of film and television surround us daily with images of evil - images that have often gone critically unexamined. In the belief that people in ever-increasing numbers are turning to the media for their understanding of evil, this lively and provocative collection of essays addresses the changing representation of evil in a broad spectrum of films and television programmes. Written in refreshingly accessible and de-jargonised prose, the essays bring to bear a variety of philosophical and critical perspectives on works ranging from the cinema of famed director Alfred Hitchcock and the preternatural horror films Halloween and Friday the 13th to the understated documentary Human Remains and the television coverage of the immediate post-9/11 period. The Changing Face of Evil in Film and Television is for anyone interested in the moving-image representation of that pervasive yet highly
