Psychology doesn't have to be complicated. Drawing on cognitive behavioral therapy, mindfulness, and positive psychology, The Mood Cards offer a fun and accessible way to help you identify and explore your moods and emotions. Each of the 42 beautifully illustrated mood and emotion cards includes guided questions for self-exploration plus a positive affirmation. Whether you wish to manage difficult moods, approach relationships more skillfully, become more sensitive to the needs of others, or simply be able to communicate and listen effectively, using the cards will encourage you to be confident in who you are, expand your emotional intelligence, and help you move forward in a positive way.

How human musical experience emerges from the audition of organized tones is a riddle of long standing. In The Musical Representation, Charles Nussbaum offers a philosophical naturalist's solution. Nussbaum founds his naturalistic theory of musical representation on the collusion between the physics of sound and the organization of the human mind-brain. He argues that important varieties of experience afforded by Western tonal art music since 1650 arise through the feeling of tone, the sense of movement in musical space, cognition, emotional arousal, and the engagement, by way of specific emotional responses, of deeply rooted human ideals. Construing the art music of the modern West as representational, as a symbolic system that carries extramusical content, Nussbaum attempts to make normative principles of musical representation explicit and bring them into reflective equilibrium with the intuitions of competent listeners. The human mind-brain, writes Nussbaum, is a living record of its evolutionary history; relatively recent cognitive acquisitions derive from older representational functions of which we are hardly aware. Consideration of musical art can help bring to light the more ancient cognitive functions that underlie modern human cognition.

This easy-to-use 28-day write-in journal is founded on CBT (cognitive behavioral therapy) and self-development techniques to help readers understand and manage their moods and emotions. The daily tracker helps the reader chart their feelings alongside daily energy levels, sleep patterns, exercise, food and drink, and even medication. Free-writing pages throughout encourage self-reflective journaling. CBT worksheets prompt readers to delve deep into emotions and patterns of thinking, and weekly assessments allow readers to chart their progress. This fun, informative, and motivating book will help readers take control and make positive changes to lead a healthier, happier lives, improve self-esteem, and build personal relationships as they work toward their goals.

"This life changing book helps readers use cognitive-behavioral therapy - one of today's most effective forms of psychotherapy - to conquer depression, anxiety, panic attacks, anger, guilt, shame, low self-esteem, eating disorders, substance abuse, and relationship problems. The second edition contains numerous new features : expanded content on anxiety ; chapters on setting personal goals and maintaining progress ; happiness rating scales ; gratitude journals ; innovative exercises focused on mindfulness, acceptance, and forgiveness; new worksheets ; and much more."--Publisher.

Children not shown tools to develop emotional intelligence fail emotionally and socially. Basic empathy skills are absent. In adult life, employment and occupational advancement are less likely. Making Sense of Emotion grasps the Yale integrative emotional intelligence ability model. Adding key missing elements, this book unlocks its potential to trigger "emotion performance utilization" in real life and real-time. The epidemic of overusing medications, substance use disorders, addiction, drug overdoses, even global "doping" in sports reflects emotional malaise. Emotional illiteracy is one underlying cause and demands innovative emotional intelligence. Written by a psychiatrist, this volume supplies literacy tools—a vivid action language showing how emotions unfold as personal dramas. Emotions are our first language—the mother tongue infants and children are "lived by." Emotional awareness is refined emotional intelligence. This book clearly defines emotions, feelings, affects, moods, and the social-emotional competencies needed to understand and build emotional awareness. Skills take shape resulting in unfolding self-attunement. In real-time, emotional intelligence is effective emotional performance. The missing link between the two is the application of emotion regulation in real life—knowledge in the head displayed in skilled everyday behavior. Innovative ideas in this book explain how to apply this emotional hygiene fitness program to benefit children and adults.

A report on the roles of gender, emotion, and power in the workplace counsels readers on how to thrive in emotionally charged business environments and promotes rational behavior during conflicts.

"Hilariously witty, unflinchingly honest, and brimming with hope." Bobbi Brown "A fascinating, thorough, and truly helpful book. I loved it!" Sarah Knight, New York Times bestselling author of Calm the F\*ck Down The Happiness Project meets So Sad Today in this "hilariously witty, unflinchingly honest" book from the beloved founder of Words of Women, contemplating the nature of negative emotions, and the insights that allowed her to take back control. Five years ago, Lauren Martin was sure something was wrong with her. She had a good job in New York, an apartment in Brooklyn, a boyfriend, yet every day she wrestled with feelings of inferiority, anxiety and irritability. It wasn't until a chance encounter with a (charming, successful) stranger who revealed that she also felt these things, that Lauren set out to better understand the hold that these moods had on her, how she could change them, and began to blog about the wisdom she uncovered. It quickly exploded into an international online community of women who felt like she did: lost, depressed, moody, and desirous of change. Inspired by her audience to press even deeper, The Book of Moods shares Lauren's journey to infuse her life with a sense of peace and stability. With observations that will resonate and inspire, she dives into the universal triggers every woman faces - whether it's a comment from your mother, the relentless grind at your job, days when you wish the mirror had a Valencia filter, or all of the above. Blending cutting-edge science, timeless philosophy, witty anecdotes and effective forms of self-care, Martin has written a powerful, intimate, and incredibly relatable chronicle of transformation, proving that you really can turn your worst moods into your best life.

The extraordinary #1 New York Times bestseller about the ability of books to feed the soul even in the darkest of times. Nominated as one of America's best-loved novels by PBS's The Great American Read. When Death has a story to tell, you listen. It is 1939. Nazi Germany. The country is holding its breath. Death has never been busier, and will become busier still. Liesel Meminger is a foster girl living outside of Munich, who scratches out a meager existence for herself by stealing when she encounters something she can't resist—books. With the help of her accordion-playing foster father, she learns to read and shares her stolen books with her neighbors during bombing raids as well as with the Jewish man hidden in her basement. In superbly crafted writing that burns with intensity, award-winning author Markus Zusak, author of I Am the Messenger, has given us one of the most enduring stories of our time. "The kind of book that can be life-changing." —The New York Times "Deserves a place on the same shelf with The Diary of a Young Girl by Anne Frank." —USA Today DON'T MISS BRIDGE OF CLAY, MARKUS ZUSAK'S FIRST NOVEL SINCE THE BOOK THIEF.

A bestselling modern classic—both poignant and funny—about a boy with autism who sets out to solve the murder of a neighbor's dog and discovers unexpected truths about himself and the world. Nominated as one of America's best-loved novels by PBS's The Great American Read Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. He relates well to animals but has no understanding of human emotions. He cannot stand to be touched. And he detests the color yellow. This improbable story of Christopher's quest to investigate the suspicious death of a neighborhood dog makes for one of the most captivating, unusual, and widely heralded novels in recent years.
