but care workers who are working in social care, child care, education, and the criminal justice field should also find parts of the book relevant. Nurse teachers in Schools of Nursing which have implemented competence-based approaches towards Project 2000 programmes should also find the book useful.

Competence-based assessment has become the norm since this best-selling book was first published. It is now viewed in most organizations as essential that workplace efficiency is measured by occupational standards - but this can seem a complex area for many trainers. This revised second edition provides trainers and students with a critical guide to the key principles, methods, implications and benefits of competence-based techniques. Drawing from her own extensive experience, Shirley Fletcher offers practical and authoritative guidance for all trainers and managers using, or wanting to use, this form of work-based assessment. In Part One she explains what competence-based assessment is, its purposes and uses, and looks at the different systems in existence. Part Two gives advice on implementation and examines in particular: setting performance criteria; collecting evidence of competence; matching evidence against standards or criteria; occupational; and behavioural competence.

Librarians must now work at a different level from that required 20 years ago, but the training available is not always appropriate or accessible to all. qualifications and is essential reading for anyone involved in vocational education. Previously published as The NVQ Assessor, Verifier and Candidate Handbook.

This work addresses the multiplicity of challenges facing public vocational education and training (VET) programmes around the world. It provides materials and frameworks for co-ordinating important management and structural reforms, offering practical guidelines for managing budget and finance, evaluating performance, and developing strategic operational plans, along with other valuable methods and techniques for running effective VET systems. Organized into six distinct modules, the volume provides suggestions for identifying and reacting to labour market signals and solving common problems.

This book provides an overview of the Lifelong Learning Sector while also helping students engage with professional writing. Each chapter in the book is presented as an independently authored 'paper' concentrating on a key theme, including professionalism, reflective practice and how previous experience can shape teaching. Guidance and discussion notes follow to help the reader evaluate the writing and approach, and activities are included to develop the readers' own professional skills in reading and writing. This is an invaluable text for all those working towards QTLS, covering key content, demystifying academic writing, and encouraging reflective reading and practice.
