The ending of HG Wells book "The Time Machine" is picked up and developed in a most satisfactory way at the conclusion of the book, to include an explanation (with political overtones which I am sure HG Wells himself would have approved of) of the divergence of the strands of humanity which develop into the Eloi and Morlock peoples.

During the so-called "Golden Age" of piracy (roughly 1700-1725), thousands of pirates terrorized shipping lanes all over the world, particularly in the Atlantic and Indian Oceans. From KIRKUS Reviews In this stellar time-travel novel, a modern-American nuclear-powered cruiser sails through a time portal and goes back 152 years to the days just before the beginning of the Civil War. The USS California, under the command of Capt. Ashley Patterson, an African-American woman, is headed toward Charleston, S.C., to participate in a ceremony commemorating the first battle of the Civil War: the bombardment of Fort Sumter on April 12, 1861. But before her ship reaches its destination, the massive cruiser—and its 630 crew members—travel through some sort of temporal wormhole and end up near the Charleston Harbor in 1861, just hours before the Confederate assault is about to begin. After eventually wrapping her head around the fact that her entire crew has traveled back in time, Patterson realizes that she has some difficult decisions to make: Does she let history repeat itself and focus on trying to find a way back home, or does she use the military superiority of the California—outfitted with enough fire power to unleash Biblical hell on an enemy—to help end the war quickly and thus save the approximately 620,000 soldiers who would otherwise die in the next four years? Powered by a cast of well-developed characters—Lincoln and Lee are among the prominently featured historical figures—consistently brisk pacing and a pulse-pounding conclusion, the humanist themes of this novel are momentous and just as timely today as they were back in the 1860s. This provocative, intensely powerful novel is a must-read for sci-fi fans and Civil War aficionados, though mainstream fiction readers will find it heart-rending and inspiring as well. A rare read that's not only wildly entertaining, but also profoundly moving.

H. G. Wells wasn ' t the only nineteenth-century writer to dream of a time machine. The Spanish playwright Enrique Gaspar published El anacron ó pete— " He who flies against time " —eight years before Wells ' s influential work appeared. The novel begins at the 1878 Paris Exposition, where Dr. Don Sindullo unveils his new invention—which looks like a giant sailing vessel. Soon the doctor embarks on a voyage back in time, accompanied by a motley crew of French prostitutes and Spanish soldiers. The purpose of his expedition is to track down the imprisoned wife of a third-century Chinese emperor, believed to possess the secret to immortality. A classic tale of obsession, high adventure, and star-crossed love, The Time Ship includes intricately drawn illustrations from the original 1887 edition, and a critical introduction that argues persuasively for The Time Ship ' s historical importance to science fiction and world literature.

"Buckle up—this is another crazy ride!" The Scrapyard Ship sci-fi "cliff-hanger" adventures continue with HAB 12, the second book in the series. Captain Jason Reynolds faces new challenges, not only on Earth but from the far side of the universe as well. The only way to stop the Craing this time will be to square off with them on their home turf. Jason's been informed that three powerful Craing warships, having similar technology as The Lilly, will soon be en route to Earth. The Alliance must destroy the Craing's wormhole means of distant space travel to avert Earth's total annihilation. Unfortunately, there's no way to reach the Craing worlds in time, at least not through conventional means. It's up to Jason and his hand-picked assault team to traverse, by advanced phase-shifting means, through the hazardous environment of HAB 12. This is an adventure fraught with carnivores of a Jurassic Age magnitude, and a terrain so deadly that turning back may be their only hope of survival. Note from the author: Don't be surprised by cliff-hanger endings. I'll do my best to keep Scrapyard Ship as well as the Tapped In series books coming so you wont have long to wait for the next book. Enjoy!

Follows a group of six kids stranded on a deserted island as they embark on a quest for survival that tests their limits.

As the ancient tradition of Bingtown ' s Old Traders slowly erodes under the cold new order of a corrupt ruler, the Vestrits anxiously await the return of their liveship—a rare magic ship carved from sentient wizardwood, which bonds the ships mystically with those who sail them. And Althea Vestrit waits even more avidly, living only to reclaim the ship as her lost inheritance and captain her on the high seas. But the Vivacia has been seized by the ruthless pirate captain Kennit, who holds Althea ' s nephew and his father hostage. Althea and her onetime sea mate Brashen resolve to liberate the liveship—but their plan may prove more dangerous than leaving the Vivacia in Kennit ' s ambitious grasp.
