"The best parts of you are hidden where you're most afraid to look." --Michael Benner, Fearless Intelligence" Fear is a doorway to understanding yourself better. The secret is to plumb the depth and breadth of your anxiety and confusion in relaxed levels of expanded awareness. Becoming more self-aware of your anxious feelings reveals the personal wisdom hidden within heartache and upset. "As we understand our self better, we become less alienated and more content -- calmer, happier, and more self-confident. Fewer random thoughts demand our attention. This or that occurs as this and that, and behavior becomes less reflexive -- more appropriate, even-tempered and well reasoned. Soon, defensiveness yields to acceptance, competition surrenders to cooperation -- lines fade, borders dissolve, and your perspective expands to include the 'Wholeness' of life."

The new FileMaker 12 allows you to build unparalleled databases for a wide variety of devices, from Windows and Mac desktops to iPhones and iPad. With 10 million registered customers, FileMaker's users are "average Joes" who are knowledge workers, subject matter experts, and business users from all walks of life. The community extends well beyond

the pool of professional software developers. FileMaker's legendary ease-of-use has led to its wide adoption and has allowed non-programmers an avenue into creating sophisticated software solutions. FileMaker 12 Developer's Reference will serve to help bridge the gaps in these people's understanding of FileMaker's hundreds of calculation functions, script steps, and operations. They know FileMaker, they've used it for years, but they need a quick reference, immediately accessible while not interrupting their work on screen. There is no other book like this on the market. All FileMaker books include information on calculation formulas, scripting, etc., but none have expressly focused on giving readers one simple thing: a quick reference to be used in conjunction with their programming efforts. Some books teach, others explain, still others explore specific in-depth topics. This book will appeal to the entire FileMaker Pro community and be a great extension of their library. This edition is updated for the many new features coming with FileMaker 12, including the product's design functionality and the file format, and a new section dedicated to FileMaker Go, which is the iOS client.

In a community where conformity flourishes, seeds of Rhoda's odd behavior were planted long ago. Can she cultivate her relationships with the same care and tenderness that she gives her beloved garden? Old Order Amish Rhoda Byler's unusual gift and her remarkable abilities to grow herbs and berries have caused many to think her odd. As rumors mount that Rhoda's "gift" is a detriment to the community, she chooses isolation, spending her time in her fruit garden and on her thriving canning business. Miles away in Harvest Mills, Samuel King struggles to keep his family's apple orchard profitable. As the eldest son, Samuel farms with his brothers, the irrepressible Jacob and brash Eli, while his longtime girlfriend Catherine remains hopeful that Samuel will marry her when he feels financially stable. Meanwhile, Samuel's younger sister Leah is testing all the boundaries during her rumschprunge, and finds herself far from home in Rhoda's garden after a night of partying gone badly. But Leah's poor choices serve as a bridge between Rhoda and the King family when a tragic mistake in the orchard leaves Samuel searching for solutions. Rhoda's expertise in canning could be the answer, but she struggles with guilt over the tragic death of her sister and doesn't trust herself outside her garden walls. As the lines between business, love, and family begin to blur, can Rhoda finally open up to a new life? And what effect will this odd, amazing woman have on the entire King family?

In this Infoline, you will learn to use the Cultural Adaptation Process (CAP) model to adapt learning for other cultures. You will learn how to analyze the cultural characteristics of targeted learners to determine what adaptations to the learning might be needed; recommend critical adaptations to training courses or materials based on your analysis, and then test those recommendations; and adapt the training course to the needs of the targeted learners in the most effective way possible.
