Theory of literary criticism.

A commentary on some Swahili novels from Zanzibar.

This story unfolds amidst the traditional social and cultural life of the people inhabiting Ukerewe in northern Tanzania. It tells of the lives of Mr Mr Myombekere and his wife Bugonoka whose love survives despite their failure to conceive children in a polygamous society where sterility is stigmatised, bearing children is a central source of meaning in life, and a man is expected to marry additional women until he produces a child. This couple remain committed only to one another and search for a cure to their ailment. Their actions strengthen their relationship, and they become an exemplary couple in their society, finally rewarded by the birth of a son and daughter. The genesis and evolution of Kitereza's epic novel and its context is as perhaps as remarkable as the work itself. Kitereza was born in Ukerewe in 1896 and wrote at the height of colonial rule, in part to preserve a culture threatened with extinction. He wished to keep alive the relationships of a people with one another and the land, and the spirit of cooperation on which their social life was based. He chose to write in his native Kikerewe because 'above all, I wanted this to be a way of preserving the language of our ancestors, by showing the reader how beautifully they spoke to each other'. This classic Tanzanian story was written in Kikerewe in 1945, but to this day, remains unpublished in this language. Failure to find a publisher for the Kikerewe work persuaded Kitereza to translate his work into Swahili in 1969, which was then published in 1980 and widely acclaimed. Previously only available in the author's own Kiswahili translation, this is the first complete translation into English. The translator, Gabriel Ruhumbika is a writer, professor of literature and descendant of Kitereza. He had unique

access to the author's manuscripts and diaries. Ruhumbika also provides a comprehensive introduction and explanatory notes on the text.

Africa is a marriage of cultures: African and Asian, Islamic and Euro-Christian. Nowhere is this fusion more evident than in the formation of Swahili, Eastern Africa's lingua franca, and its cultures. *Swahili Beyond the Boundaries: Literature, Language, and Identity* addresses the moving frontiers of Swahili literature under the impetus of new waves of globalization in the twentieth and twenty-first centuries. These momentous changes have generated much theoretical debate on several literary fronts, as Swahili literature continues to undergo transformation in the mill of human creativity. Swahili literature is a hybrid that is being reconfigured by a conjuncture of global and local forces. As the interweaving of elements of the colonizer and the colonized, this hybrid formation provides a representation of cultural difference that is said to constitute a "third space," blurring existing boundaries and calling into question established identitarian categorizations. This cultural dialectic is clearly evident in the Swahili literary experience as it has evolved in the crucible of the politics of African cultural production. However, *Swahili Beyond the Boundaries* demonstrates that, from the point of view of Swahili literature, while hybridity evokes endless openness on questions of home and identity, it can simultaneously put closure on specific forms of subjectivity. In the process of this contestation, a new synthesis may be emerging that is poised to subject Swahili literature to new kinds of challenges in the politics of identity, compounded by the dynamics and counterdynamics of post-Cold War globalization.

The concept of "chaos", and chaos theory, though it is a field of study specifically in the field of mathematics with applications in physics, engineering, economics, management, and education, has also recently taken root in the social sciences. As a method of analyzing the way in which the digital age has connected society more than ever, chaos and complexity theory serves as a tactic to tie world events and cope with the information overload that is associated with heightened social connectivity. *The Handbook of Research on Chaos and Complexity Theory in the Social Sciences* explores the theories of chaos and complexity as applied to a variety of disciplines including political science, organizational and management science, economics, and education. Presenting diverse research-based perspectives on mathematical patterns in the world system, this publication is an essential reference source for scholars, researchers, mathematicians, social theorists, and graduate-level students in a variety of disciplines.
