Outstripped that of almost every class of financial product. Whether you are an entrepreneur seeking private equity finance, a private equity investor grappling with the industry's changes, or an investor interested in private equity as a potential investment, this book is required reading! It presents a collection of real world cases-supplemented by detailed industry notes-that explore the exciting and dynamic world of venture capital and buyout funds. The organization mirrors that of the venture capital/private equity process itself: * The first part explores the raising and structuring of private equity funds, as well as the perspective of investors. * The second part explores the selection, oversight, and adding value to firms-the 'heart' of the private equity cycle. * The third part describes how private equity groups reap attractive returns from successful investments. * The final section explores the emerging efforts to translate the private equity model into other settings, such as corporate venturing programs.

Ten Leading private investors share their secrets to maximum profitability In The Masters of Private Equity and Venture Capital, the pioneers of the industry share the investing and management wisdom they have gained by investing in and transforming their portfolio companies. Based on original interviews conducted by the authors, this book is filled with colorful stories on the

Subjects that most matter to the high-level investor, such as selecting and working with management, pioneering new markets, adding value through operational improvements, applying private equity principles to non-profits, and much more.

Other books present corporate finance approaches to the venture capital and private equity industry, but many key decisions require an understanding of the ways that law and economics work together. This revised and updated 2e offers broad perspectives and principles not found in other course books, enabling readers to deduce the economic implications of specific contract terms. This approach avoids the common pitfalls of implying that contractual terms apply equally to firms in any industry anywhere in the world. In the 2e, datasets from over 40 countries are used to analyze and consider limited partnership contracts, compensation agreements, and differences in the structure of limited partnership venture capital funds, corporate venture capital funds, and government venture capital funds. There is also an in-depth study of contracts between different types of venture capital funds and entrepreneurial firms, including security design, and detailed cash flow, control and veto rights. The implications of such contracts for value-added effort and for performance are examined with reference to data from an international perspective. With

Seven new or completely revised chapters covering a range of topics from Fund Size and Diseconomies of Scale to Fundraising and Regulation, this new edition will be essential for financial and legal students and researchers considering international venture capital and private equity. An analysis of the structure and governance features of venture capital contracts In-depth study of contracts between different types of venture capital funds and entrepreneurial firms Presents international datasets from over 40 countries around the world Additional references on a companion website Contains sample contracts, including limited partnership agreements, term sheets, shareholder agreements, and subscription agreements

Global financial markets might seem as if they increasingly resemble each other, but a lot of peculiar aspects qualify different markets with different levels of development. Private equity investors can take advantage of these variations. Structured to provide a taxonomy of the business, *Private Equity and Venture Capital in Europe, Second Edition*, introduces private equity and venture capital markets while presenting new information about the core of private equity: secondary markets, private debt, PPP within private equity, crowdfunding, venture philanthropy, impact investing, and more. Every chapter has been updated, and new data, cases, examples,

Investment companies within the scope of FASB ASC 946, Financial Services –Investment Companies, (including private equity funds, venture capital funds, hedge funds, and business development companies). It features 16 case studies that can be used to reason through real situations faced by investment fund managers, valuation specialists and auditors, this guide addresses many accounting and valuation issues that have emerged over time to assist investment companies in addressing the challenges in estimating fair value of these investments, such as: Unit of account Transaction costs Calibration The impact of control and marketability Backtesting

Building on the success of the author's previous book *Beyond the J Curve: Managing a Portfolio of Venture Capital and Private Equity Funds*, this work covers new and additional material and offers advanced guidance on the practical questions faced by institutions when setting up and managing a successful private equity investment programme. Written from the practitioner's viewpoint, the book offers private equity and venture capital professionals an advanced guide that will make high return targets more realistic and sustainable. Factors that can sometimes cause institutions to shy away from venture capital are the industry's opaque track record, unclear valuations and risks, perceived lack of transparency as well as the

Significant entry barriers to overcome before tangible results show. These issues are all addressed in details with practical solutions to the problems. Among other topics J-Curve Exposure includes discussions of: Experiences with the adoption of the International Private Equity and Venture Capital Valuation Guidelines to address fair value under IFRS. Approaches for splitting and prioritizing distributions from private equity funds. Techniques for track record analysis and other tools to help limited partners in their due diligence. Approaches to dealing with uncertainty, the relevance of real options, and co-investments and side funds as advanced portfolio management techniques. Questions related to limited partner decision making fallacies and how to manage portfolios of VC funds. Securitization backed by portfolios of investments in private equity funds. Real life case studies illustrate the issues relevant for the practitioner.

In recent times, venture capital and private equity funds have become household names, but so far little has been written for the investors in such funds, the so-called limited partners. There is far more to the management of a portfolio of venture capital and private equity funds than usually perceived. Beyond the J Curve describes an innovative toolset for such limited partners to design and manage portfolios tailored to the dynamics of this market place, going far beyond the typical and often-simplistic

Read Free Venture Capital And Private Equity Contracting An International

Recipe to 'go for top quartile funds'. Beyond the J Curve provides the answers to key questions, including: Why 'top-quartile' promises should be taken with a huge pinch of salt and what it takes to select superior fund managers? What do limited partners need to consider when designing and managing portfolios? How one can determine the funds' economic value to help addressing the questions of 'fair value' under IAS 39 and 'risk' under Basel II or Solvency II? Why is monitoring important, and how does a limited partner manage his portfolio? How the portfolio's returns can be improved through proper liquidity management and what to consider when over-committing? And, why uncertainty rather than risk is an issue and how a limited partner can address and benefit from the fast changing private equity environment? Beyond the J Curve takes the practitioner's view and offers private equity and venture capital professionals a comprehensive guide making high return targets more realistic and sustainable. This book is a must have for all parties involved in this market, as well as academic and students.
