This unique book paints a revealing picture of America and its people for those foreigners who will benefit from a better understanding of America. It will also inform Americans who want to learn more about the U.S. and how it compares to other countries around the world. World traveler and teacher Lance Johnson studies cultural differences and the difficulties foreigners have understanding crazy America, as some call it. Foreigners might come to the U.S. to work for American employers, to open branch offices or factories for their homeland employers, to start their own businesses, or go to school. Others might work for American organizations in their homelands or have American teachers there. An understanding of American culture and language will contribute to their success. As the title suggests, this book is for "foreigners." Dictionaries say they are people who are not citizens of a country. For this book they are defined as anyone who is not sufficiently familiar with American culture to achieve success. This includes the multitudes of foreign born, naturalized citizens who have lived in the U.S. for years and still struggle with the ways and the language. A foreigner could also be a first-generation American whose immigrant parents did not fully expose their children to American culture and they now pay the price in mainstream U.S. There are lots of other examples, too. FORMAT Each of the 26 chapters' brush strokes contributes to the final painting of what America is all about. The chapters are grouped into four books. (An all-in-one book is also available.)•Book 1 (A to G) – America's Heritage. This defines the historical background of why America and its people became who and what they are today. •Book 2 (H to T, this book) – America's Culture. This section describes everyday life in America, ranging from customs and etiquette, to what's on the minds of Americans, to education. Practical advice is provided for the one million foreign applicants who seek and gain admission to U.S. colleges and universities each year. Pointers are provided on the cultural differences students should expect, and how to get the most from their education once enrolled. •Book 3 (U to X) – America's Business. This explains the complex business environment, operations, and people-related customs and why the U.S. is an economic juggernaut. Information is provided for starting a business of your own in the U.S. as well as how to increase the chances of your getting hired by an American firm in the U.S. or abroad. •Book 4 (Y to Z) – America's Language. These chapters discuss practical ways to improve English grammar, speech, writing, communication skills, and reducing accents. Common English grammar and speech errors made by foreigners are identified and simple tips are provided for overcoming them. ENDORSEMENTS "I congratulate you on writing this timely work. This will promote better mutual understanding between America and Asia." - Tommy Koh, Singapore Ambassador to the U.N. and U.S. "Your book covers a broad range of topics that I am sure many...will find very useful." - Clark T. In clear language and with numerous examples, this book describes the basic characteristics of American culture: values, style of communication, patterns of thinking, customary behaviours, and underlines how they are different from the ways of other cultures. It then shows how these characteristics are reflected in the many aspects of American life which the foreigner encounters (including politics, social relations, personal hygiene, public behaviour, studying and business). The book also offers concrete suggestions on how to learn more about American culture and how to respond most effectively to the Americans one meets.

Jess has been in love with her best friend, Kate, for seven years, but her feelings have never been returned. One night they sleep together, and Jess finds out how much it is possible to be hurt by someone close. Jess and Kate struggle to redefine their friendship. They spend a week at Jess's family holiday house in a small seaside town. Awatangi, intending to make the time to talk things through, but the conversations never happen. Kate makes vague promises, but begins to have second thoughts. Jess wants Kate, and nothing else, and is heartbroken that isn't enough. Jess decides – while everything is changing in her life – that she doesn't want to go on living in the city, that she wants to return to Awatangi. Part of her hopes some physical distance between them may help things with Kate, and part of her – frustrated and upset – simply wants to leave Kate behind. In Awatangi, Jess meets Keri, a local lawyer who has also recently returned home. Like Jess, Keri surfs, and like Jess, she seems to feel some attachment to her family roots in Awatangi. Jess is drawn to Keri, but forces herself not to let anything happen. Despite everything, Kate is still Jess's closest friend, and she has loved Kate all her life. She feels she has to give the situation with Kate as long as she can to work itself out. Awatangi is about coping with feelings for a close friend that are not returned, set in a small holiday township on the West Coast of the South Island of New Zealand. It is an exploration of getting what you've always wanted and it not being another, of being in love with one person and wanting another, and of finding out that life doesn't always turn out as expected.
