Since change

the bestselling

that change is inevitable and beyond your control, don't waste your time wondering why things are the way they are, keep your head down and start looking for the cheese. But success in the areas of innovation, entrepreneurship, creativity, leadership, and business

growth—as well as personal growth—depends on the ability to push the boundaries, reshape the environment, and play by a different set of rules: our own.

With that in mind, Harvard Business School professor Deepak Malhotra offers a radically different answer to

this question.

Malhotra tells an inspiring story about three unique and adventurous mice—Max, Big, and Zed—who refuse to accept their reality as given. As we watch their lives unfold and intersect, we discover that instead of just blindly chasing after the cheese, each of

reminds us that we
