William Butler Yeats - poems - Publication Date: 2012 Publisher: Poemhunter.com - The World's Poetry Archive. William Butler Yeats(13 June 1865 – 28 January 1939) William Butler Yeats was an Irish poet and playwright, and one of the foremost figures of 20th century literature. A pillar of both the Irish and British literary

This brand new collection, impeccably edited by James Pethica, presents a comprehensive selection of Yeats's major contributions in poetry, drama, prose fiction, autobiography, and criticism.

Throughout his long life, William Butler Yeats -- Irish writer and premier lyric poet in English in this century -- produced important works in every literary genre, works of astonishing range, energy, erudition, beauty, and skill. His early poetry is memorable and moving. His poems and plays of middle age address the human condition with language that has entered our vocabulary for cataclysmic personal and world events. The writings of his final years offer wisdom, courage, humor, and sheer technical virtuosity. T. S. Eliot pronounced Yeats "the greatest poet of our time -- certainly the greatest in this language, and so far as I am able to judge, in any language" and "one of the few whose history is the history of their own time, who are a part of the consciousness of an age which cannot be understood without them." The Yeats Reader is the most comprehensive single volume to display the full range of Yeats's talents. It presents more than one hundred and fifty of his best-known poems -- more than any other compendium -- plus eight plays, a sampling of his prose tales, and excerpts from his published autobiographical and critical writings. In addition, an appendix offers six early texts of poems that Yeats later revised. Also included are selections from the memoirs left unpublished at his death and complete introductions written for a projected collection that never came to fruition. These are supplemented by unobtrusive annotation and a chronology of the life. Yeats was a protean writer and thinker, and few writers so thoroughly reward a reader's efforts to essay the whole of their canon. This volume is an excellent place to begin that enterprise, to renew an old acquaintance with one of world literature's great voices, or to continue a lifelong interest in the phenomenon of literary genius.

The Yeats Reader is the first single volume to encompass the full range of William Butler Yeats's talents. It presents over a hundred and fifty of Yeats's best-known poems, plus eight plays, a sampling of his prose tales, and excerpts from his published autobiographical and critical writings. In addition, an appendix offers six early texts of poems that Yeats later revised. Also included are selections from the memoirs left unpublished at his death and complete introductions written for the unpublished Scribner Edition of his collected works. The Yeats Reader also includes detailed notes and a chronology of the life.

This authoritative edition was first published in the acclaimed Oxford Authors series under the general editorship of Frank Kermode. It brings together a unique combination of Yeats's poetry and prose - all the major poems,

complemented by plays, critical writings, and letters - to give the essence of his work and thinking. W. B. Yeats was born in 1865, only 38 years after the death of William Blake, and died in 1939, the contemporary of Ezra Pound and James Joyce. His career crossed two centuries, and this volume represents the full range of his achievement, from the Romantic early poems of *Crossways* and the symbolist masterpiece *The Wind Among the Reeds* to his last poems. Myth and folk-tale influence both his poems and his plays, represented here by Cathleen ni Houlihan and *Deirdre* among others. The importance of the spirit world to his life and work is evident in his critical essays and occult writings, and the anthology also contains political speeches, autobiographical writings, and a selection of his letters. This one-volume collection of poems and prose offers a unique perspective on the connectedness of Yeats's literary output, showing how his aesthetic, spiritual, and political development was reflected in everything he wrote.

A comprehensive and accessible introduction to the major themes of this important poet's life and career.

This book presents a broad survey of the Dutch reception of the work of William Butler Yeats during his lifetime. Yeats' important, wide-ranging oeuvre marks the transition from the nineteenth to the twentieth century. The response to his poetry, drama and prose exemplifies the Dutch reception of English romanticism as well as modernism, and reveals the workings of canon formation. The author has investigated the early days of Dutch Anglistics, showing that teachers of English were of little influence in the Yeats reception. Instead, the Dutch sympathy for the Irish cause and a taste for romantic literature prove to be essential factors in arousing enthusiasm for his early writings. Apart from the well-publicised performances of *The Only Jealousy of Emer*, Yeats' modern work was given little attention. Although poets like A. Roland Holst, P.N. van Eyck and J.C. Bloem were very well acquainted with Yeats' oeuvre and accumulated impressive collections, reading modern Yeats largely remained a private affair.

*Yeats, Philosophy, and the Occult* is a collection of essays examining the thought of the Irish poet W. B. Yeats and particularly his philosophical reading and explorations of older systems of thought, where philosophy, mysticism, and the supernatural blend. It opens with a broad survey of the current state of Yeats scholarship, which also includes an examination of Yeats's poetic practice through a manuscript of the original core of a poem that became a work of philosophical thought and occult lore, "The Phases of the Moon." The following essay examines an area where spiritualism, eugenic theory, and criminology cross paths in the writings of Cesare Lombroso, and Yeats's response to his work. The third paper considers Yeats's debts to the East, especially Buddhist and Hindu thought, while the fourth looks at his ideas about the dream-state, the nature of reality, and contact with the dead. The fifth essay explores Yeats's understanding of the concept of the Great Year from classical astronomy and philosophy, and its role in the system of his work *A Vision*, and the sixth paper studies that work's theory of "contemporaneous periods" affecting each other across history in the light of Oswald Spengler's *The Decline of the West*. The seventh essay evaluates Yeats's reading of Berkeley and his critics' appreciation (or lack of it) of how he responds to Berkeley's idealism. The book as a whole explores how Yeats's mind and thought relate to his poetry, drama, and prose, and how his reading informs all of them.

Carrying a story to tell is the "ancient burden" of craftsmen, and it is one of the characteristics of the quest to find oneself, since a journey requires recognition of the aspects of self and anti-self. Like the speaker of his poems, W.B. Yeats has something to tell. His poetry draws nourishment from the battle between the dichotomies of self and anti-self, human and divine, mind and intellect, past and present, and body and soul. This book covers a selection of Yeats's poems from 1889 to 1939, discussing them within the frame of the quest to find oneself and its gyroscopic transformation. The book illustrates that self is not a single entity, but has multiple layers, and it can be found within the quest in which it experiences a simultaneous transformation with every phase of the antithetical structure of gyroscopic movements. In addition, the way of the quest is cyclical; however, it is not a vicious cycle, since, in life, every end is a phase of a beginning and every beginning is a phase of an end.
